Statement pursuant to Section 102(1) of the Companies Act, 2013 as amended ('Act')

The following Statement sets out all material facts relating to Item Nos. 4 to 11 mentioned in the accompanying Notice.

Item No. 4

Based on the recommendation of the Nomination and Remuneration Committee, the Board of Directors ('Board'), appointed Mr. T. V. Narendran as an Additional (Non-Executive, Non-Independent) Director of the Company effective November 13, 2019. Pursuant to the provisions of Section 161 of the Companies Act, 2013 ('Act') and Article 104 of the Articles of Association of the Company, Mr. T. V. Narendran will hold office upto the date of ensuing Annual General Meeting ('AGM') and is eligible to be appointed as a Director of the Company. The Company has, in terms of Section 160 of the Act, received a notice in writing from a Member, proposing the candidature of Mr. Narendran for the office of Director. Mr. Narendran once appointed will be liable to retire by rotation and will be subject to the Company's policy on Retirement of Directors.

The Company has received from Mr. Narendran (i) consent in writing to act as Director in Form DIR-2 pursuant to Rule 8 of the Companies (Appointment and Qualifications of Directors) Rules, 2014, (ii) intimation in Form DIR-8 in terms of the Companies (Appointment and Qualifications of Directors) Rules, 2014, to the effect that he is not disqualified under Section 164(2) of the Act and (iii) declaration pursuant to BSE Circular No. LIST/COMP/14/2018-19 dated June 20, 2018, that he has not been debarred from holding office of a Director by virtue of any Order passed by Securities and Exchange Board of India or any other such authority.

The profile and specific areas of expertise of Mr. Narendran are provided as an annexure to this Notice.

None of the Directors and Key Managerial Personnel of the Company, or their respective relatives, except Mr. Narendran, to whom the resolution relates, is, concerned or interested, in the resolution mentioned at item no. 4 of the Notice.

The Board recommends the Resolution set forth in item no. 4 for the approval of the Members.

Item No. 5

Based on the recommendation of the Nomination and Remuneration Committee, the Board of Directors ('Board'), appointed Mr. Koushik Chatterjee as an Additional (Non-Executive, Non-Independent) Director of the Company effective November 13, 2019. Pursuant to the provisions of Section 161 of the Companies Act, 2013 ('Act') and Article 104 of the Articles of Association of the Company, Mr. Koushik Chatterjee will hold office upto the date of ensuing Annual General Meeting ('AGM') and is eligible to be appointed as a Director of the Company. The Company has, in terms of Section 160 of the Act, received a notice in writing from a Member, proposing the candidature of Mr. Chatterjee for the office of Director. Mr. Chatterjee once appointed will be liable to retire by rotation and will be subject to the Company's policy on Retirement of Directors.

The Company has received from Mr. Chatterjee (i) consent in writing to act as Director in Form DIR-2 pursuant to Rule of the Companies (Appointment and Qualifications of Directors) Rules, 2014, (ii) intimation in Form DIR-8 in terms of the Companies (Appointment and Qualifications of Directors) Rules, 2014, to the effect that he is not disqualified under Section 164(2) of the Act and (iii) declaration pursuant to BSE Circular No. LIST/COMP/14/2018-19 dated June 20, 2018, that he has not been debarred from holding office of a Director by virtue of any Order passed by Securities and Exchange Board of India or any other such authority.

The profile and specific areas of expertise of Mr. Chatterjee are provided as an annexure to this Notice.

None of the Directors and Key Managerial Personnel of the Company, or their respective relatives, except Mr. Chatterjee, to whom the resolution relates, is, concerned or interested, in the resolution mentioned at item no. 5 of the Notice.

The Board recommends the Resolution set forth in item no. 5 for the approval of the Members.

Item No. 6

Based on the recommendation of the Nomination and Remuneration Committee, the Board of Directors (**'Board'**), appointed Ms. Ramya Hariharan as an Additional (Independent) Director of the Company, not liable to retire by rotation, effective September 19, 2019. Pursuant to the provisions of Section 161 of the Act and Article 104 of the Articles of Association of the Company, Ms. Ramya Hariharan will hold office up to the date of the ensuing Annual General Meeting (**'AGM'**) and is eligible to be appointed as a Director of the Company. The Company has, in terms of Section 160 of the Act, received a notice in writing from a Member proposing the candidature of Ms. Hariharan for the office of Director.

The Company has received from Ms. Hariharan (i) consent in writing to act as Director in Form DIR-2 pursuant to Rule 8 of the Companies (Appointment & Qualification of Directors) Rules, 2014, (ii) intimation in Form DIR-8 in terms of the Companies (Appointment & Qualification of Directors) Rules, 2014, to the effect that she is not disqualified under Section 164(2) of the Act, (iii) a declaration to the effect that she meets the criteria of independence as provided in Section 149(6) of the Act read with Regulation 16 and Regulation 25(8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended that, she is not aware of any circumstance or situation which exists or may be reasonably anticipated that could impair or impact her ability to discharge her duties, (iv) a declaration pursuant to BSE Circular No. LIST/COMP/14/2018-19 dated June 20, 2018, that she has not been debarred from holding office of a Director by virtue of any Order passed by Securities and Exchange Board of India or any other such authority and (v) a confirmation in terms of Regulation 25(8) of SEBI Listing Regulations.

The resolution seeks approval of Members in terms of Section 149, 152 and other applicable provisions of the Act, read with Schedule IV of the Act and the Rules made thereunder, and in terms of the applicable provisions of the Listing Regulations, as amended, for appointment of Ms. Hariharan as an Independent Director of the Company for a period commencing September 19, 2019 through September 18, 2024. Ms. Hariharan, once appointed, will not be liable to retire by rotation.

In the opinion of the Board, Ms. Hariharan is a person of integrity and meets the expertise and experience (including the proficiency) as specified in the Act and the Rules made thereunder read with the provisions of the Listing Regulations, each as amended, and is independent of the Management of the Company. A copy of letter of appointment of Ms. Hariharan as an Independent Director setting out the terms and conditions is available for inspection without any fee payable by the Members in electronic mode during the normal business hours on working days up to the date of the AGM.

B. Dividend

In view of the net loss incurred during the financial year ended March 31, 2020, the Board of Directors ('Board') does not recommend any dividend to the shareholders of the Company.

C. Transfer to Reserves

In view of the losses incurred by the Company during the year under review, no amount has been transferred to the General Reserve of the Company.

D. Management Discussion and Analysis

The Management Discussion and Analysis as required in terms of Regulation 34(2) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended from time to time ('SEBI Listing Regulations') is annexed as **Annexure-1** to the report.

E. State of affairs and financial performance

Operations and performance of the Company

During the year under review, the Company successfully completed the Performance Guarantee test for two projects viz., NMDC Donimalai and Indure Solapur. The Company has achieved physical closure of seven projects viz., BHEL North Karanpura, Yermaras, Kothagudam, Wanakbori, Meja, NMDC Bachel and NTPC Kudgi.

Through concerted and vigorous efforts, the Company has been able to collect nearly Rs. 1,100 lakh in retention money against existing major projects this year. The Company has also been able to substantially reduce its overall Bank Guarantee exposure to Rs. 26,400 lakh as of March 31, 2020, from Rs. 32,700 lakh as of March 31, 2019.

Financial performance

During the year under review, the total turnover from operations was Rs. 18,641.11 lakh (previous year Rs. 23,705.82 lakh). During the year, the Company recorded a net loss of Rs. 13,263.91 lakh (previous year: Net Loss Rs.10,556.90 lakh). The decrease in turnover is on account of slower execution of projects. The increase in loss is primarily on account of provision for doubtful debtors, slow moving inventory and the additional provision for expected loss on legacy projects due to COVID-19 pandemic.

Operations and performance of Subsidiary Companies

Management Discussion & Analysis

1. Overview

The objective of this report is to convey the Management's perspective on the Industry structure and Development, Opportunities, Threats, material developments in human resources and industrial relations, financial and operating performance of the Company during the Financial Year 2019-20. This report forms an integral part of the Board's Report and should be read in conjunction with the Company's financial statements, the schedules and notes thereto and other information included elsewhere in the Annual Report. The Company's financial statements have been prepared in accordance with Indian Accounting Standards ('Ind AS') complying with the requirements of the Companies Act, 2013, as amended and regulations issued by the Securities and Exchange Board of India ('SEBI') from time to time.

2. Industry Structure and Development

Global Economy

In Calendar Year 2019, global economic growth declined to 2.9% primarily on account of rising geopolitical tensions, trade wars, policy uncertainties and Brexit related concerns. The outbreak of the COVID-19 pandemic has further contributed to economic deceleration across the globe in 2020.

Economic growth is expected to further decline in Calendar Year 2020 with the outlook being unusually uncertain. Particularly, emerging markets and developing economies face exceptional challenges given the economic slowdown and poorly equipped health systems. Economic activity has come to a halt with lockdown measures adopted by major countries to contain the pandemic spread. Financial market conditions have tightened. Job losses have started to accumulate as service activities that require human interactions have declined sharply. In addition, the uncertainty remains very high with respect to the path of the pandemic, its duration, depth of necessary containment measures, the effectiveness of government policy measures and the commercial availability of a vaccine is still being ascertained.

Indian Economy

Growth in India slowed down to 4.9% in Calendar Year 2019. The outbreak of COVID-19 in early 2020 has further exacerbated this slowdown in economic growth in India. The pandemic has created supply shortage in the short term with factory shutdowns, drying cash flows, labour shortages and supply chain disruptions. However, long-term demand is also expected to be muted with lower discretionary spends, loss in income and employment, weaker global demand and poor market sentiments.

The Government of India has announced several measures to aid business operations. The Reserve Bank of India has introduced rate cuts as well as undertaken several measures to provide long term liquidity, including providing loan and working capital interest moratorium, providing targeted long-term refinance options, increasing ways and means advances limits for government and easing of prudential and forbearance measures.

While the International Monetary Fund has cut India's GDP growth rate to 1.9% for the Financial Year 2020-21, ICRA Limited expects a contraction of ~16% to 20% in Indian's GDP in Q1 of Financial Year 2020-21 while it indicates a full-year contraction of ~1% to 2%. Moody's Corporation on the other hand expects India to record a 0% growth during this period.

The recent graded relaxations announced by the government will see a resumption of economic activity, but under relatively stringent norms, the pace of economic activity will remain constrained. Labour unavailability and supply chain disruptions are expected to remain a drag in the manufacturing and construction sector. This is expected to trigger a decline in the revenues and margins, especially for Q1 Financial Year 2020-21, which is likely to be severely hit. Q2 Financial Year 2020-21, being a seasonally weak quarter due to monsoon, recovery is expected to gradually pickup from Q3 Financial Year 2020-21.

The Company has been engaged in the business of designing and manufacturing of bulk material handling systems and equipment for core sector industries such as power, ports, steel, mining and cement for projects undertaken on Turnkey basis. The equipment includes, crushers, screens, feeders, conveying equipment, mining equipment, wagon tippler systems and stacker reclaimers. The other primary area of business is as below:

- Electromechanical jobs.
- Industrial structure and fabrication.
- Life Cycle Services and allied services.

The Company is also exploring the opportunity to further expand its business with Tata Steel, for which approval of shareholders is being sought. The above measures will improve the overall performance of the Company.

Going forward, the Company intends to primarily focus on execution of all major projects based on priority, concentrating in securing profitable spares, equipment and operation and maintenance service orders of small size. This will result in quick capital turnaround without significant commercial and financial exposures, reducing cost as a strong business priority, endeavouring to become a responsive organisation to meet the customers need with pivotal focus on delivery commitment, exploring options for restructuring of subsidiaries, optimising working capital requirements and giving impetus to improve employee engagement, motivation and thereby enhancing productivity levels.

3. Opportunities

- a. Significant opportunities of growth exist over the next few years in key sectors such as Steel, Ports, Mining and Power for equipment and life cycle services.
- b. Opportunities in the structural business including fabrication and erection.
- c. Opportunity of partnering with Tata Steel for its growth projects.

4. Threats

- a. The emergence of global market players delivering an extended range of products endowed with latest technology.
- b. Post Covid-19 pandemic, an extended period of weak investment growth is expected to result in a shortage of orders.
- c. Company's inability to meet the pre-qualification criteria of positive net worth might result in loss of orders.
- d. Delay in performance guarantee test might lead to a delay in collection of retention money and site closure.

5. Financial Performance

On a standalone basis, the total income from operations of your Company during the Financial Year 2019-20 was Rs. 19,441 lakh (Previous year Rs. 24,440 lakh). Loss before tax for the year was Rs. 13,264 lakh (Previous year loss before tax was Rs.10,557 lakh).

5. Outlook for the Power, Steel, Port and Mining sector in which your company operates is detailed below:**Steel Sector :**

India's crude steel production registered a marginal degrowth of 2.2% falling to 108.500 million tonnes (MT) in Financial Year 2019-20 vis-a-vis 110.921 MT in Financial Year 2018-19. The production of hot metal and pig iron declined by 1.8% at 73.00 MT and 14.1% at 5.50 MT respectively. The total Finished Steel production grew by 0.8% at 102.059 MT while the consumption increased by 1.4% at 100.067 MT from 98.708 MT. The exports of total finished steel outpaced imports during Financial Year 2019-20 and India was a net exporter during this period.

The price rise in India from November, 2019 onwards was in line with the global trend. In the aftermath of the COVID-19 outbreak in January 2020, the prices had witnessed a fall in China due to demand slowdown and halted logistics. With significant inventory build-up, China is expected to dump steel in India. India's exports to South-East Asia market might also get impacted due to inventory build-up by China.

The slowing economic activity would affect demand growth of Steel sector in Financial Year 2020-21, with any significant pick up being unlikely. Muted demand, inventory build-up and oversupply would see steel prices to come under pressure post-lockdown. Unavailability of workforce and restricted logistics movement would continue to have an overhang on the revival. Also, the demand from infrastructure, construction and real-estate sectors is likely to remain subdued and lower discretionary spends is expected to continue to impact the demand of automobile and white goods.

The expenditure by the Government of India on infrastructure sector would remain the key driver for the industry in Financial Year 2020-21.

With Capex activities being limited, the Company will continue to pursue opportunities in the revenue expenditure activities related to spares and operations and Maintenance for steel sector.

Power Sector :

The power sector continued to struggle with low capacity utilization. The Plant Load Factor (PLF) for coal and lignite based power plants remained dismally low at 56% in Financial Year 2019-20 against 61% in

Financial Year 2018-19. The PLF for central power plants was 65.36% against 72.64% in Financial Year 2018-19, while PLF of state and private sector was even lower at 50.26% and 54.73% in Financial Year 2019-20 against 57.81% and 55.24% respectively in Financial Year 2018-19. The excess capacity has been a limiting factor for fresh investments in the Thermal power sector and the reason for stressed assets in the power sector.

Installed capacity of power stations in India grew from 356 GW in Financial Year 2018-19 to 370.10 GW in Financial Year 2019-20 while the renewable energy capacity grew from 77.6 GW to 87.028 GW in Financial Year 2019-20 as compared the same period last year.

Overall Electricity generation witnessed a growth of 1% from 1249 Billion Units (BU) in Financial Year 2018-19 to 1252 BU in Financial Year 2019-20.

In Financial Year 2020-21, a decline in the Power demand is likely to take place, due to slowing industrial and commercial activity and policy actions from government that favour consumers (e.g. moratorium) over utility companies. Distribution Company (DISCOMs) that rely on subsidies from the government, could result in delayed payment to power producing companies, as the government with limited finances will push subsidies towards social and healthcare spending in order to contain the COVID-19 outbreak. The moratoriums to consumers on unpaid dues might further weaken the credit profile of DISCOMs. The recently announced government and RBI relief measures for the power sector will look to offset alleviate these challenges.

There is expected to be no major Capex in the power sector in Financial Year 2020-21 but the company will continue to pursue opportunities in terms of refurbishment, equipment supply, operation & maintenance and spares.

Port Sector :

The 12 major ports recorded a growth of 0.82% in the traffic handled in Financial Year 2019-20 of 704.63 million tonnes (MT) against 699.10 million tonnes (MT) in Financial Year 2018-19. While the capacity increased from 1,477 MT (Financial Year 2018-19) to 1,524.91 MT (Financial Year 2019-20), the capacity utilization in Financial Year 2019-20 stood at 46.2% as compared to 47.3% in Financial Year 2018-19.

The number of vessels handled by ports was 20,837 in Financial Year 2019-20 against 20,853 vessels in Financial Year 2018-19. Considering the low capacity utilization levels, a significant increase in the existing capacity may not be undertaken in the near future.

However, as per the National Perspective Plan (NPP), a roadmap is developed for increasing the Indian Port capacity to 3300+ Mtpa by Fiscal 2025. The master planning of 12 major projects have been carried out and 95 capacity expansion and port modernization projects have been identified.

Under the ambitious Sagarmala Programme, the flagship programme of Ministry of Shipping (MoS) to promote port led development harnessing India's 7,500 km coastline and 14,500 km of navigable waterways, 500 projects have been identified at an estimated infrastructure investment of Rs. 3.55 lakh crore across all pillars. Of these identified projects, 143 projects worth Rs. 0.88 lakh crore have been completed and 190 projects worth Rs. 2.12 lakh crore are under implementation.

Cargo volumes had been witnessing slowdown in Financial Year 2019-20 on back of various factors including US-China trade war and general economic slowdown. With the ongoing outbreak of COVID-19, Financial Year 2020-21 traffic is expected to remain tepid as government restrictions will exacerbate the woes.

While all major port companies have declared a force majeure event to guard themselves against commercial liabilities. Ministry of Finance and Ministry of Shipping have provided several reliefs and extensions for smooth running of projects in these unprecedented times. However, the operations are expected to remain muted and pace of recovery to be slow.

The Company will pursue spares and services contracts by tapping on to its existing installed base.

Mining Sector :

All India coal production witnessed 0% growth in Financial Year 2019-20 as the production stood at 729.08 MT in Financial Year 2019-20 as against 728.72 MT in Financial Year 2018-19. With the ongoing lockdown due to COVID-19 pandemic, the electricity demand in offices and factories have been slashed,

thus swelling the inventory levels. The production is expected to register degrowth in Financial Year 2020-21 due to significantly lower demand from both power and non-power sectors.

The Iron ore production increased by 19% in Financial Year 2019-20. The production touched 246.5 MT against 205.68 MT, as a few miners in Odisha ramped up production before the expiration of mining lease on March 31, 2020. They were supported by strong demand from Steel mills and pellet producers who increased their stock piles anticipating supply crunch post lease expiry.

Supply shortages of iron ore in the global market led by outages at Vale in Brazil and cyclone in Australia bolstered the demand for India iron ore resulting more than threefold increase in the exports in Financial Year 2019-20 as compared to Financial Year 2018-19.

As for the overall production across minerals, the Index of Mineral production suggests a cumulative growth of 1.7% in Financial Year 2019-20 over the corresponding period of previous year.

Financial Year 2020-21 is likely to experience a slowdown in the economic activity to decelerate the growth in the sector.

6. Risks and Concerns

Liquidity remains a major challenge for the operations of the Company. The outbreak of the COVID-19 pandemic has further aggravated the liquidity position of the Company. With the receipt of orders from Tata Steel, the Company is expected to avail better working capital cycle and enhance its liquidity position.

Further, in order to improve the risk management framework, a revised Risk Register compatible with the current business setup has been promulgated through detailed deliberation with the assistance of an external consultant.

7. Statutory Compliance

After obtaining necessary confirmation from the various units of the Company on compliance to all statutory requirements, a declaration regarding compliance with the provisions of the various statutes is made by the Managing Director at the Board Meetings of the Company on a quarterly basis. The Company Secretary / Compliance Officer ensures compliance with the SEBI regulations and provisions of the Listing Agreement and acts as the Compliance Officer for prevention of insider trading and ensures compliance with the Tata Code of Conduct for Prevention of Insider Trading & Code of Corporate Disclosure Practices .

8. Internal Financial Control Systems and their adequacy

The internal control systems and procedure are continuously monitored to enhance its effectiveness and to be commensurate with the scale and nature of operations of the Company. The Company has appointed M/s Deloitte Haskins & Sells, as the Internal Auditors, who directly report to the Audit Committee of the Board of the Company. During the year, the Audit Committee regularly met to discharge its functions as required pursuant to the (Listing Obligations and Disclosure Requirements) Regulations 2015. The Audit Committee reviews compliance to the Revenue Recognition and Provisioning Policy of the Company. The Internal Audit activities are undertaken as per the Annual Audit Plan of the Company duly approved by the Audit Committee.

The Audit Committee regularly meets with the Statutory Auditors to ascertain their views on the adequacy of internal controls and their observations on the financial reports.

9. Material Developments in Human Resources/Industrial Relations

Human resource development, retention and engagement of employees continue to be a focus area for the Company. The Company conducted following activities during Financial Year 2019-20 :

- Skill assessment of all workers with the view to plan their future development and re-deployment as per requirements.
- Skill assessment of FTC (Fixed Term Contract) and contractor employees were introduced to ascertain their suitability.
- Health assessment of all categories of employees was introduced.

The number of employees on roll of the Company as on March 31, 2020 was 1,254.

The capability building continued to be a top priority.

SECRETARIAL AUDIT REPORT
FORM NO. MR - 3
FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2020
[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies
(Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To
The Members,
TRF Limited
11, Station Road, Burmamines,
Jamshedpur - 831 007

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by TRF Limited (hereinafter called 'the Company') having CIN: L74210JH1962PLC000700. Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts / statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion the Company has, during the audit period covering the financial year ended on 31st March, 2020 complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2020 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the Rules made there under;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the Rules made there under;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- (iv) Foreign Exchange Management Act, 1999 [FEMA] and the Rules and Regulations made there under to the extent applicable for Overseas Direct Investment [ODI]. Provisions relating to Foreign Direct Investment [FDI] and External Commercial Borrowings [ECBs] were not applicable since the Company did not have any FDI or ECBs during the year under report;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 [not applicable to the Company during the audit period];
 - (d) The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and/or The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 [not applicable to the Company during the audit period];
 - (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 [not applicable to the Company during the audit period];
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client [not applicable to the Company during the audit period];

- (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 [not applicable to the Company during the audit period]; and
- (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018 [not applicable to the Company during the audit period];
- (vi) Other laws applicable specifically to the Company:
 - The Factories Act, 1948 and allied state laws.

We have also examined compliance with the applicable clauses of the following:

- (a) Secretarial Standards issued by the Institute of Company Secretaries of India and approved by the Central Government under section 118(10) of the Companies Act, 2013 with regard to Meetings of the Board of Directors (SS-1) and General Meetings (SS-2).
- (b) Listing Agreements entered into by the Company with BSE Limited, National Stock Exchange of India Limited and Calcutta Stock Exchange Limited read with The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirement) Regulations, 2015 [Listing Regulations].

During the period under review the Company has complied with the provisions of the Acts, Rules, Regulations, Guidelines etc. mentioned above and has generally observed the Secretarial Standards.

In respect of other laws specifically applicable to the Company we have broadly reviewed the same, without carrying out detailed examination of all the relevant records / documents with a view to determine accuracy and completeness of periodical compliances. During the course of our audit, we have relied on information placed before the Board at its meetings and written representations made by the management in this regard and the reporting is limited to that extent.

We further report that:

- (a) The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the year under review were carried out in compliance with the provisions of the Act.
- (b) Adequate notice was given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance for meetings other than those held at shorter notices and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.
- (c) Majority decision is carried through while the dissenting member's views are captured and recorded as part of the Minutes.

We have been informed that the Company has appropriately responded to notices for show causes, claims, dues, demands, fines, penalties etc. received from various statutory / regulatory authorities under the laws, rules, regulations mentioned above and initiated actions for corrective measures, wherever necessary.

We further report that based on review of compliance mechanism established by the Company and on the basis of the certificates taken on record by the Board of Directors at its meeting(s), we are of the opinion that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the audit period the Company had the following specific events / actions which had bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, standards etc. referred above:

- a) The Company had sought the approval of the shareholders by way of a Special Resolution through notice of postal ballot dated 17th May, 2019 for "approval for sale of 100% stake held by the Company's wholly owned subsidiary TRF Singapore Pte. Ltd in Dutch Lanka Trailer Manufacturers Limited (a step down wholly owned subsidiary of the Company) along with its 100% subsidiary Dutch Lanka Engineering (Private) Limited and 50% stake held in Tata International DLT Private Limited, a Joint Venture Company of Dutch Lanka Trailer Manufacturers Limited and Tata International Limited" which was duly passed and the results of which were announced on 22nd June, 2019.

- b) The TRF Group had entered into share purchase agreement (SPA) with Canyon Point Investment Holdings Pte. Ltd. (CANYON) for transfer of its shareholding in its step down subsidiaries Dutch Lanka Trailers Manufacturers Limited along with its subsidiary Dutch Lanka Engineering Pvt. Ltd and joint venture Tata International DLT Private Limited. CANYON has vide its letter dated 16th September, 2019 expressed its inability to complete the transactions as per SPA dated 17th May, 2019 citing occurrence of Material Adverse Changes and has terminated the said SPA with immediate effect.
- c) The Company had sought the approval of the shareholders by way of a Special Resolution through notice of postal ballot dated 26th July, 2019 for "approval for sale of 100% stake held by the Company's wholly owned subsidiary TRF Singapore Pte. Ltd in Hewitt Robins International Holdings Limited (a step down wholly owned subsidiary of the Company) along with its 100% subsidiary Hewitt Robins International Limited, which was duly passed and the results of which were announced on 30th August , 2019. On 04th September, 2019 TRF Singapore Pte. Ltd. has divested its stake in Hewitt Robins International Holdings Limited and its subsidiary Hewitt Robins International Limited.
- d) There was delay in dissemination of financial results for the quarter and half-year ending 30th September, 2019 pursuant to Regulation 33 of the Listing Regulations. The financial results for the aforesaid period was approved by the Board of Directors on 14th February, 2020. Pursuant to Regulation 98 of the Listing Regulations read with SEBI SOP Circular dated 03rd May, 2018 the Company has paid fines to BSE Limited and National Stock Exchange of India Limited to discharge liabilities for contravention of aforesaid Listing Regulations, complied with other stipulations specified in the notices received from stock exchanges and the Company is in compliance with the relevant procedures laid down by SEBI in this regard.
- e) The Company submitted application to Reserve Bank of India [RBI] in 2013 for capitalisation of corporate guarantee fee (SGD 1,51,230) and interest on loan (USD 7,19,461 and SGD 7,36,637) receivable from TRF Singapore Pte. Limited. The same was approved by RBI vide letter dated September 11, 2018 subject to compounding for non-compliance with Regulation 15(ii) of Foreign Exchange Management (Transfer or Issue of any Foreign Security) (Amendment) Regulations, 2004 for its offence in respect of non-remittance of the said receivables in foreign currency from the wholly-owned subsidiary (WOS). The Company has filed an application on 12th October, 2018 but RBI has advised the Company to submit a fresh application along with the same in connection with another matter in respect of one of its step down subsidiary, pending with RBI.
- f) The Company has incurred loss during the year under report and the accumulated losses as on year end has eroded the net worth of the Company. Preparation of the financial statements on going concern assumption is based on the reasons and assumptions stated in notes to accounts. These events, along with the other matters set out in the notes to accounts indicate that a material uncertainty related to the going concern assumption exists and the company's ability to continue as a going concern is dependent on the financial support from the promoter and generation of the expected cash flows through operations, to be able to meet its obligations as and when they arise.
- g) Annual Return on Foreign Liabilities and Assets for the financial year ending 31st March, 2019 pursuant to A.P.DIR series Circular No.37 dated June 28, 2019 issued by RBI under FEMA has been filed beyond the due date.

Corporate Governance Report

Company's Philosophy on Corporate Governance

Effective corporate governance practices constitute the strong foundation on which successful commercial enterprises are built to last. The Company's philosophy on corporate governance oversees business strategies and ensures fiscal accountability, ethical corporate behaviour and fairness to all stakeholders comprising regulators, employees, customers, vendors, investors and the society at large.

Strong leadership and effective corporate governance practices have been the Company's hallmark inherited from the Company's culture and ethos.

The Company has a strong legacy of fair, transparent and ethical governance practices.

The Company is in compliance with the requirements stipulated under Regulation 17 to 27 read with Schedule V and clauses (b) to (i) of Regulation 46(2) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('**SEBI Listing Regulations**'), as applicable, with regard to corporate governance.

Code of Conduct

The Company has adopted a Code of Conduct ('**Code**') for Executive Directors ('**EDs**'), Senior Management Personnel and other Executives and its employees. The Company has received confirmations from the EDs as well as Senior Management Personnel regarding compliance of the Code during the year under review. In addition, the Company has also adopted a Code of Conduct for its Non-Executive Directors ('**NEDs**') which includes Code of Conduct for Independent Directors ('**IDs**') comprising the duties of IDs as laid down in the Companies Act, 2013 ('**the Act**'). The same is available on the website of the Company <https://trf.co.in/investors-relations/code-of-conduct-for-non-executive-directors/>. The Company has received confirmation from the NEDs and IDs regarding compliance of the Code for the year under review.

Code of Conduct for Prevention of Insider Trading & Code of Corporate Disclosure Practices

In accordance with the Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015, as amended from time to time, the Board of Directors of the Company has adopted, the Code of Conduct for Prevention of Insider Trading and the Code of Corporate Disclosure Practices ('**Insider Trading Code**').

Mr. Subhashish Datta, Company Secretary of the Company is the Compliance Officer in terms of this Insider Trading Code.

Board of Directors

The Board is at the core of our corporate governance practices and oversees and ensures that the Management serves and protects the long-term interest of all our stakeholders. We believe that an active, well-informed and independent Board is necessary to ensure the highest standards of corporate governance.

Size and Composition of the Board

- i. The Company's policy is to have an appropriate mix of Executive Directors ('**EDs**'), Non-Executive, Non-Independent Directors ('**NEDs**') and Independent Directors ('**IDs**') to maintain the Board's independence and separate its functions of governance and management. As on March 31, 2020, the Company has ten (10) Directors, one (1) of whom is an ED, four (4) NEDs and five (5) IDs including two (2) Women Directors. The profiles of Directors can be found on www.trf.co.in/corporate/board-of-directors/. The composition of the Board is in conformity with Regulation 17 of the SEBI Listing Regulations read with Section 149 of the Act.
- ii. None of the Directors serves as a Director or as IDs in more than seven listed entities and none of the EDs serve as IDs on any listed company as on date of the report. Further, none of our IDs serve as Non-Independent

Director of any company on the board of which any of our Non-Independent Director is an ID. Necessary disclosures regarding Committee positions in other public companies as on March 31, 2020 have been made by the Directors.

- iii. The Company has issued formal letters of appointment to the IDs and the appointments of Independent Directors are in compliance with Regulation 25(1) and (2) of the SEBI Listing Regulations. As required under Regulation 46 of the SEBI Listing Regulations, as amended, the terms and conditions of appointment of IDs including their role, responsibility and duties are available on our website at <https://trf.co.in/wp-content/uploads/2020/04/TC-Appointment-of-Independent-Director.pdf>
- iv. IDs are NEDs as defined under Regulation 16(1)(b) of the SEBI Listing Regulations read with Section 149(6) of the Act along with rules framed thereunder. In terms of Regulation 25(8) of SEBI Listing Regulations, they have confirmed that they are not aware of any circumstance or situation which exists or may be reasonably anticipated that could impair or impact their ability to discharge their duties. Based on the declarations received from the Independent Directors, the Board of Directors has confirmed that they meet the criteria of independence as mentioned under Regulation 16(1)(b) of the SEBI Listing Regulations and that they are independent of the management. Further, the IDs have in terms of Section 150 of the Act read with Rule 6 of the Companies (Appointment & Qualification of Directors) Rules, 2014, confirmed that they have enrolled themselves in the Independent Directors' Databank maintained with the Indian Institute of Corporate Affairs.

Committees of the Board

There are four (4) Statutory Committees of Board as on March 31, 2020, considering the needs of the Company. The details of all the Committees of Board are given below.

Audit Committee

The primary objective of the Audit Committee is to monitor and provide an effective supervision of the Management's financial reporting process, to ensure accurate and timely disclosures, with the highest levels of transparency, integrity and quality of financial reporting. The Committee oversees the work carried out in the financial reporting process by the management, the internal auditor, the statutory auditor and the cost auditor and notes the processes and safeguards employed by each of them. The Committee further reviews the process and controls including compliance with laws, Tata Code of Conduct and Code of Conduct for Prevention of Insider Trading and Code for Corporate Disclosure Practices, Whistle Blower Policies and related cases thereto, functioning of the Prevention of Sexual Harassment at Workplace Policy, guidelines and internal controls.

The Board of Directors of the Company adopted the Audit Committee Charter on July 30, 2016 which was subsequently revised on April 15, 2019. The broad terms of reference of the Audit Committee are as per Section 177 of the Companies Act, 2013 and Part C of Schedule II read with Regulation 18(3) of SEBI Listing Regulations.

In order to ensure independence and objectivity of external Auditors, the Committee discusses on significant issues pertaining to Financial Statements, impairment of assets, appropriate estimates and judgments of the Management, conclusions reached by Auditors in respect of key judgment and identifying any other issues in relation to the above.

Further, the Committee discusses on significant issues pertaining to Financial Statements, impairment of assets, appropriate estimates and judgments of the Management, conclusions reached by Auditors in respect of key judgment and identifying any other issues in relation to the above, to ensure independence and objectivity of external Auditors.

The Company Secretary acts as the Secretary to the Committee. The Internal Auditor reports functionally to the Audit Committee. The Executive Directors and Senior Management of the Company also attend the meetings as invitees as required.

During the Financial Year 2019-20, the Audit Committee met six (6) times on April 15, 2019, May 15, 2019, July 12, 2019, November 12, 2019, January 31, 2020 and February 14, 2020. The necessary quorum was present at all the meetings.

Performance Evaluation Criteria for Independent Directors :

The performance evaluation criteria for independent directors are governed by the Tata Steel group governance policy adopted by the Board. An indicative list of factors on which evaluation is carried out includes participation and contribution by a director, commitment, effective deployment of knowledge and expertise, integrity and maintenance of confidentiality and independence of behavior and judgment.

Remuneration Policy :

The existing policy for remuneration of non-executive directors, executive directors, key managerial personnel, senior management and other employees was reviewed by the Nomination and Remuneration Committee at its meeting held on May 1, 2015. The existing policy was continued. The Non-Executive Directors are paid remuneration by way of sitting fees and commission. The commission is paid at the rate not exceeding 1% of net profits computed in accordance with Section 198 of the Companies Act, 2013. The Nomination and Remuneration Committee recommends the annual commission to be paid to the Non-Executive Directors. The distribution of commission amongst Non-Executive Directors is placed before the Board. The Commission is distributed on the basis of their attendance and contribution to the Board and its Committees meetings. The Company pays remuneration by way of salary, perquisites and allowances (fixed component) and Commission/Performance Linked Remuneration (variable component) payable to the Managing/Whole-time Director(s). The payment of Commission (as a percent of profit)/Performance Linked Bonus is determined by the Board at the end of the financial year based on the recommendations of the Nomination and Remuneration Committee. The Company pays remuneration comprising of the following to Key Managerial Personnel, Senior Management and other employees. The Remuneration policy is available on <https://trf.co.in/wp-content/uploads/2020/04/Policy-on-directors-KMP-and-employee-remuneration.pdf>.

Corporate Social Responsibility Committee

The purpose of our Corporate Social Responsibility ('CSR') Committee is to formulate and recommend to the Board, a Corporate Social Responsibility Policy, which shall indicate the initiatives to be undertaken by the Company, recommend the amount of expenditure the Company should incur on Corporate Social Responsibility activities and to monitor from time to time the CSR activities and Policy of the Company. The Committee provides guidance in formulation of CSR strategy and its implementation and also reviews practices and principles to foster sustainable growth of the Company by creating values consistent with long-term preservation and enhancement of financial, manufacturing, natural, social, intellectual and human capital.

Investor grievance and share transfer system :

We have a Board-level Stakeholders' Relationship Committee to examine and redress investors' complaints. The status on complaints and share transfers are reported to the entire Board. During the Financial Year 2019-20, the Securities and Exchange Board of India ('SEBI') and Ministry of Corporate Affairs ('MCA') has mandated that existing members of the Company who hold securities in physical form and intend to transfer their securities after April 1, 2019, can do so only in dematerialized form. Therefore, Members holding shares in physical form were requested to consider converting their shareholding to dematerialized form.

Share transactions in electronic form can be effected in a simpler and faster manner. After a confirmation of a sale/purchase transaction from the broker, shareholders should approach the Depository Participant ('DP') with a request to debit or credit the account for the transaction. The DP will immediately arrange to complete the transaction by updating the account. There is no need for a separate communication to the Company to register these share transfers.

Shareholders should communicate with TSR Darashaw Consultants Private Limited, the Company's Registrars and Transfer Agents ('RTA') quoting their Folio Number or Depository Participant ID ('DP ID') and Client ID number, for any queries to their securities.

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

4. We draw attention to Note 44.02 to the Standalone Financial Statements with respect to the losses incurred by the company, erosion of its net worth and preparation of the Standalone Financial Statements on going concern assumption based on the reasons and assumptions stated in the aforesaid note. These events, along with the other matters set out in the Note indicate that a material uncertainty related to the going concern assumption exists and the company's ability to continue as a going concern is dependent on the financial support from the promoter and generation of the expected cash flows through operations, to be able to meet its obligations as and when they arise. Our opinion is not modified in respect of this matter.

Emphasis of Matter

5. We draw your attention to the following matters:
 - a) Note 44.10 to the Standalone Financial Statements which states that the Reserve Bank of India (RBI) had approved conversion of certain receivables from one of its wholly owned subsidiary (WOS) to equity, subject to the Company applying for compounding of its offence in respect of non-remittance of the said receivables in foreign currency from the WOS. Though the company had applied to the RBI for compounding, the same has not been accepted by RBI pending fulfilment of other conditions laid by RBI as specified in the note.
 - b) Note 44.14 of the Standalone Financial Statements, which describes the management's assessment of the financial impact of the events arising out of Coronavirus (Covid-19) pandemic, for which a definitive assessment of the impact in the subsequent period is dependent upon the circumstances as they evolve.

Our opinion is not modified in respect of these matters.

Key audit matters

6. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the 'Material Uncertainty Related to Going Concern' section of our report, we have determined the matters described below to be the key audit matters to be communicated in our report.

Appropriateness of estimation of cost to complete the projects**Description of Key Audit Matter****(Refer to Note 44.03 to the Standalone Financial Statements)**

The Company recognizes revenue from construction contracts on percentage completion method as specified under Indian Accounting Standards (IndAS) 115 - Revenue from Contracts with Customers. Determination of revenue requires estimation of total contract costs which is done based on the actual cost incurred till date and the cost to be incurred to complete the projects. The estimation of cost to complete involves exercise of significant judgement by the management and assessment of project data, making forecasts and assumptions.

This has been considered as a key audit matter given the involvement of management judgement and any variation may have consequential impact on the recognised revenue.

How our audit addressed the key audit matter

We have performed the following procedures among others :

- a) Understood and evaluated the design and tested the operating effectiveness of controls around estimation of costs to complete including the review and approval of estimated project cost.
- b) Verified the contracts on test check basis entered by the Company for the consideration and relevant terms and conditions relating to variations to the cost.
- c) Obtained computation of estimated costs to complete and the percentage of project completion and verified the same against the contractual terms and the work orders placed with vendors.
- d) Verified invoices, purchase orders, receipts etc. for the actual costs incurred upto the year end date.
- e) Discussed the status of the projects with the Company's project management team and evaluated the reasonableness of the estimates made by the management of costs to be incurred for completion of the respective projects.
- f) Verified the revision in total cost of the contracts by comparing the management estimates revised during the current year with the estimate made in earlier years and obtained reasons for such revision, including verification of correspondence with the vendors in case of renegotiation of prices and the approvals for the same.

Based on the above procedures performed, we considered the management's estimation of cost to complete the project to be reasonable.

Other Information

7. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's report and management discussion analysis, but does not include the Standalone Financial Statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the Standalone Financial Statements

8. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and

presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

9. In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the Standalone Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.
11. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to Standalone Financial Statements in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

15. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure B a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

16. As required by Section 143(3) of the Act, we report that:
- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid Standalone Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to Standalone Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements - Refer Note 43 to the Standalone Financial Statements;
 - ii. The Company has made provision as at March 31, 2020, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts - Refer Note 21. The Company did not have any derivative contracts as at March 31, 2020.
 - iii. The instances of delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended March 31, 2020 are as follows:

Particulars	Due date	Date of Deposit	Amount Rs. Lakhs
Dividend F.Y. 2011-12 (warrant) dated August 01, 2012	July 31, 2019	October 30, 2019	5.71
 - iv. The reporting on disclosures relating to Specified Bank Notes is not applicable to the Company for the year ended March 31, 2020.
17. The Company has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act, except for managerial remuneration amounting to Rs. 136 Lakhs which is subject to approval of shareholders by way of special resolution in the ensuing Annual General Meeting of the Company. Also refer Note 44.13 of Standalone Financial Statements.

Annexure A to Independent Auditors' Report

Referred to in paragraph 16(f) of the Independent Auditors' Report of even date to the members of TRF Limited on the Standalone Financial Statements for the year ended March 31, 2020

Report on the Internal Financial Controls with reference to Standalone Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Act.

1. We have audited the internal financial controls with reference to Standalone Financial Statements of TRF Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to Standalone Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Standalone Financial Statements was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to Standalone Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Standalone Financial Statements included obtaining an understanding of internal financial controls with reference to Standalone Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Standalone Financial Statements.

Meaning of Internal Financial Controls with reference to Standalone Financial Statements

6. A company's internal financial controls with reference to Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to Standalone Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide

Annexure A to Independent Auditors' Report

reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone Financial Statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Standalone Financial Statements to future periods are subject to the risk that the internal financial controls with reference to Standalone Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to Standalone Financial Statements and such internal financial controls with reference to Standalone Financial Statements were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. Also refer paragraph 5(b) of the main audit report.

Annexure B to Independent Auditors' Report

Referred to in paragraph 15 of the Independent Auditors' Report of even date to the members of TRF Limited on the Standalone Financial Statements as of and for the year ended March 31, 2020

- i. (a) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of fixed assets.
(b) The fixed assets are physically verified by the Management according to a phased programme designed to cover all the items over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the fixed assets has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.
(c) The Company does not own any immovable properties as disclosed in Note 3 on fixed assets to the financial statements. Therefore, the provisions of Clause 3(i)(c) of the said Order are not applicable to the Company.
- ii. The physical verification of inventory have been conducted at reasonable intervals by the Management during the year. The discrepancies noticed on physical verification of inventory as compared to book records were not material.
- iii. The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Therefore, the provisions of Clause 3(iii), (iii)(a), (iii)(b) and (iii)(c) of the said Order are not applicable to the Company.
- iv. In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of Section 186 of the Companies Act, 2013 in respect of investments made. The Company has not granted any loans or provided any guarantees or security to the parties covered under Section 185 and 186 of the Companies Act, 2013. Therefore, the provisions of Clause 3(iv) of the said Order to that extent are not applicable to the Company.
- v. The Company has not accepted any deposits from the public within the meaning of Sections 73, 74, 75 and 76 of the Act and the Rules framed there under to the extent notified.
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products.
We have broadly reviewed the same, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is generally regular in depositing undisputed statutory dues in respect of professional tax and employees' state insurance, though there has been a slight delay in a few cases, and is regular in depositing undisputed statutory dues, including provident fund, income tax, duty of customs, goods and service tax and other material statutory dues, as applicable, with the appropriate authorities. Also refer note 44.06 to the Standalone Financial Statements regarding management's assessment on certain matters relating to provident fund.

Further, for the period March 2020, the company has paid Goods and Service Tax and filed GSTR-3B (after the due date but) within the timelines allowed by Central Board of Indirect Taxes and Customs under the Notification No. 32/2020 - Central Tax dated April 3, 2020 on fulfilment of conditions specified therein.

- (b) According to the information and explanations given to us and the records of the Company examined by us, there are no dues of duty of customs, duty of excise, value added tax which have not been deposited on account of any dispute. The particulars of dues of income tax, sales tax and service tax as at March 31, 2020 which have not been deposited on account of a dispute, are as follows :

Annexure B to Independent Auditors' Report

Name of the statute	Nature of dues	Amount (Rs. Lakhs)	Period to which the amount relates	Forum where the dispute is pending

- viii. According to the records of the Company examined by us and the information and explanation given to us, the Company has not defaulted in repayment of loans or borrowings to any financial institution or bank or Government or dues to debenture holders as at the balance sheet date.

Further, in view of the extension of time granted vide DOR.No.BP.BC.47/21.04.048/2019-20 dated March 27, 2020 for the payment of interest of Rs. 123.33 lakhs within June 30, 2020, the Company is yet to deposit the aforesaid dues within the extended due date as granted by Axis Bank Limited, Bank of Baroda, IDBI Bank Limited and HFDC Bank Limited in terms of the aforesaid notification of the Reserve Bank of India.

- ix. The Company has not raised any moneys by way of initial public offer, further public offer (including debt instruments) and term loans. Accordingly, the provisions of Clause 3(ix) of the Order are not applicable to the Company.
- x. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the Management.
- xi. The Company has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act, except for managerial remuneration amounting to Rs. 136 Lakhs which is subject to approval of shareholders by way of special resolution in the ensuing Annual General Meeting of the Company. Also refer paragraph 17 of our main audit report.

Annexure B to Independent Auditors' Report

- xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the provisions of Clause 3(xii) of the Order are not applicable to the Company.
- xiii. The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the Standalone Financial Statements as required under Indian Accounting Standard (IndAS) 24, Related Party Disclosures specified under Section 133 of the Act.
- xiv. The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Accordingly, the provisions of Clause 3(xiv) of the Order are not applicable to the Company.
- xv. The Company has not entered into any non cash transactions with its directors or persons connected with him. Accordingly, the provisions of Clause 3(xv) of the Order are not applicable to the Company.
- xvi. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the provisions of Clause 3(xvi) of the Order are not applicable to the Company.

Notes forming part of the standalone financial statements

01. General corporate information

TRF Limited ("the Company") incorporated and domiciled in India has its Registered Office at 11, Station Road, Burma Mines, Jamshedpur – 831 007. The Company is a public limited company incorporated on November 20, 1962, having its equity shares listed on the National Stock Exchange of India Limited, BSE Limited and The Calcutta Stock Exchange Limited. The Company undertakes turnkey projects of material handling for the infrastructure sector such as power and ports and industrial sector such as steel plants, cement, fertilisers and mining. The Company is also engaged in production of such material handling equipments at its manufacturing facility at Jamshedpur.

The standalone financial statements of the Company are presented in Indian Rupee (INR) which is also the Company's functional currency, being the currency of the primary economic environment in which the Company operates.

02. Summary of significant accounting policies

2.01 Statement of compliance

The financial statements for the year ended March 31, 2020 have been prepared in accordance with Indian Accounting Standards ("Ind AS") prescribed under Section 133 of Companies Act, 2013 ('the Act') read with Companies (Indian Accounting Standard) Rules 2015 (the Rules), as amended, and other relevant provisions of the Act.

2.02 Basis of preparation

The financial statements of the Company are prepared under the historical cost convention except for certain assets and liabilities that are required to be carried at fair values, as per relevant Ind ASs. Historical cost is generally based on fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

Fair value measurements are categorised into Level 1, 2 or 3, based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety. (refer note 40.09)

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Above levels of fair value hierarchy are applied consistently and generally, there are no transfers between the levels of the fair value hierarchy unless the circumstances change warranting such transfer.

2.03 Operating cycle for current and non-current classification

All the assets and liabilities have been classified as current and non-current, wherever applicable, as per the operating cycle of the Company as per the guidance set out in the Schedule III of the Act. Operating cycle for the business activities of the Company covers the duration of the specific project / contract / product line / service including the defect liability period wherever applicable and extends up to the realisation of receivables (including retention monies) within the agreed credit period normally applicable to the respective lines of business.

2.04 Use of estimates

The preparation of financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of

Notes forming part of the standalone financial statements

02. Summary of significant accounting policies (Contd.)

assets and liabilities, disclosures relating to contingent liabilities as at the date of the separate financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are included in the following notes:

- Revenue from construction contracts (refer note 2.05(ii))
- Useful lives of Property, plant and equipment & intangible assets (refer note 2.11 and 2.12)
- Assets and obligations relating to employee benefits (refer note 39)
- Valuation and measurement of income taxes and deferred taxes (refer note 2.10)
- Allowances for expected credit losses (refer note 2.17.5)
- Provisions and Contingencies (refer note 2.15)
- Retention money receivable (refer foot note below Note 11)
- Going Concern (refer note 44.02)

2.05 Revenue recognition

The Company is in the business of supply and erection and commissioning of bulk material handling equipment. The equipment and services are sold both on their own in separate identified contracts with customers and together as a bundled package of goods and/or services. The Company is also engaged in production of material handling equipment at its manufacturing plant in Jamshedpur.

The Company recognizes revenue from contract with customers when it satisfies the performance obligations by the transferring the promised goods or services to the customer. The revenue is recognised to the extent of transaction price allocated to the performance obligation is satisfied. Performance obligation is satisfied over time when the transfer of control of asset (good or service) to a customer is done over time and in other cases, performance obligation is satisfied at a point in time. For performance obligation satisfied over time, the revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation. The progress is measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.

Transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring good or service to a customer excluding amounts collected on behalf of a third party (e.g. taxes collected on behalf of the Government). Variable consideration is estimated using the expected value method or most likely amount as appropriate in a given circumstance.

Payment terms agreed with a customer are as per business practice and there is no significant financing component involved in the transaction price.

Costs to obtain a contract which are incurred regardless of whether the contract was obtained are recognised as expense in the Statement of Profit and Loss, immediately in the period in which such costs are incurred. Incremental costs of obtaining a contract, if any, and costs incurred to fulfil a contract are amortised over the period of execution of the contract in proportion to the progress measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.

Notes forming part of the standalone financial statements

02. Summary of significant accounting policies (Contd.)

i) Sale of goods

For contracts with customers for sale of equipment, revenue is recognised net of discount and rebates, at a point in time when control of the asset is transferred to the customer, which is when the goods are delivered to the customers as per the terms of the contracts. Delivery happens when the goods have been shipped or delivered to the specific location, as the case may be, the risk of loss has been transferred, and either the customer has accepted the goods in accordance with the contracts or the Company has objective evidence that all criteria related for acceptance has been satisfied.

No element of significant financing is deemed present as the sales are generally made with a credit term which is consistent with the market practice. A receivable is recognised when the goods are delivered and this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

ii) Construction contracts

Revenue from contracts are recognised with reference to the stage of completion method in accordance with Ind AS – 115 Revenue from Contracts with Customers. Obligations under the long-term construction contracts are satisfied over time given that the customer simultaneously receives and consumes the benefits provided by the Company. Revenue and costs are recognised by reference to the stage of completion of the contract activity at the end of the reporting period, measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs, except where this would not be representative of the stage of completion

The outcome of a construction contract is considered as estimated reliably when (a) all critical approvals necessary for commencement of the project have been obtained; (b) the stage of completion of the project reaches reasonable level of development. The stage of completion is determined as a proportion that contract costs incurred for work performed up to the closing date bear to the estimated total costs of respective project. Profit (contract revenue less contract cost) is recognised when the outcome of the contract can be estimated reliably and for contracts valued up to Rs. 100 Crore, profit is recognised when stage of completion is 40% or more, and for contracts valued more than Rs. 100 Crore, profit is recognised either at 25% stage of completion or an expenditure of Rs. 40 Crore whichever is higher. When it is probable that the total cost will exceed the total revenue from the contract, the expected loss is recognised immediately. For this purpose, total contract costs are ascertained on the basis of contract costs incurred and cost to completion of contracts which is arrived at by the management based on current technical data, forecast and estimate of net expenditure to be incurred in future including for contingencies etc. For determining the expected cost to completion of the contracts, cost of steel, cement and other related items are considered at current market price based on fixed cost purchase orders placed or firm commitments received from suppliers / contractors as these purchase orders and future firm commitments are enforceable over the period of the contracts.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that is probably recoverable. Contract costs are recognised as expenses in the period in which they are incurred. When contract costs incurred to date plus recognised profit less recognised losses exceed progress billing, the surplus (i.e., contract assets) is shown as amount due from customers for contract work. For contracts where progress billings exceed contract costs incurred to date plus recognised profits less recognised losses, the surplus (i.e., contract liability), is shown as the amounts due to customers for contract work. Amounts received before the related work is performed are included under “Other current liabilities” as advances received. Amounts billed for work performed but not yet paid by customer are included under trade receivables.

iii) Service Contracts

Revenue from service contracts are recognised in the accounting period in which the services are rendered. Where the contracts include multiple performance obligations, the transaction price is allocated to each performance obligation based on the standalone selling price and revenue is recognised over time as and when the customer receives the benefit of the Company’s performance based on the actual service provided to as proportion of the total services to be provided. In case, the service contracts include one performance obligation revenue is recognised

Notes forming part of the standalone financial statements**02. Summary of significant accounting policies (Contd.)**

based on the actual service provided to the end of the reporting period as proportion of the total services to be provided. This is determined based on the actual expenditure incurred to the total estimated cost.

iv) Dividend and interest income

Dividend income is recognised when the company's right to receive payment has been established and that the economic benefits will flow to the Company and amount of income can be measured reliably.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the asset's net carrying amount on initial recognition.

2.06 Lease**Upto March 31, 2019****The Company as lessee**

Assets taken on lease by the Company had substantially all the risks and rewards of ownership, are classified as finance leases. Such leases are capitalised at the inception of the lease at the lower of the fair value and the present value of the minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. The Company's significant operating leasing arrangements are for premises (office, residence etc.). The leasing arrangements which normally have a tenure of eleven months to three years are cancellable with a reasonable notice, and are renewable by mutual consent at agreed terms. The aggregate lease rent payable is charged as rent in the Statement of Profit and Loss.

With effect from April 1, 2019

The Company assesses whether a contract is or contains a lease, at inception of the contract. The Company recognises a right-of-use asset and a corresponding lease liability with respect to all lease agreements in which it is the lessee, except for short-term leases (leases with a lease term of 12 months or less) and leases of low value assets. For short term leases and leases of low value assets, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Company uses its incremental borrowing rate, which is determined using the risk free rate for the same tenor adjusted for the credit risk associated with the lease, security etc.

Lease payments included in the measurement of the lease liability comprise fixed lease payments (including in-substance fixed payments), less any lease incentives; and any variable lease payments that are based on an index or a rate, initially measure using the index or rate at the commencement date. Lease payments to be made under reasonably certain extension options are also included in the measurement of lease liabilities.

Lease payments are allocated between the principal and finance cost. The finance cost is recognized in the Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made

Notes forming part of the standalone financial statements

02. Summary of significant accounting policies (Contd.)

at or before the commencement day and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any.

Right-of-use assets are depreciated on straight-line basis over the period of lease term and useful life of the underlying asset whichever is lower. If a lease transfers ownership of the underlying asset or where it is reasonably certain that the Company will exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

In applying the Ind AS 116 for the first time, the Company has used the following practical expedients permitted by the standard.

- i) applying single discount rate to a portfolio of leases with reasonably similar character.
- ii) accounted for operating leases with remaining lease term of less than 12 months as at 01.04.2019 as short term lease.
- iii) excluding initial direct cost for the measurement of the right-of-use assets at the date of initial application and
- iv) using hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

2.07 Foreign currencies

Transactions in currencies other than entity's functional currency (foreign currency) are recorded at the rates of exchange prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies (other than derivative contracts and net investment in non-integral foreign operations) remaining unsettled at the end of each reporting period are remeasured at the rates of exchange prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rate prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange difference on monetary items are recognised in the Statement of Profit and Loss in the period in which they arise except for exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to the Statement of Profit and Loss on disposal of the net investments.

2.08 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing cost eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.09 Employee benefits

i) Short-term benefits

Short term employee benefits are recognised as an expense at the undiscounted amount in the statement of profit and loss of the year in which the related service is rendered.

ii) Defined contribution plans

Contribution to defined contribution plans are recognised as an expense when employees have rendered services entitling them to the contributions. Defined contribution plans are those plans where the Company pays fixed

Notes forming part of the standalone financial statements**02. Summary of significant accounting policies (Contd.)**

contributions to funds/schemes managed by independent trusts or authority. Contributions are paid in return for services rendered by the employees during the year. The Company has no legal or constructive obligation to pay further contributions if the fund / scheme does not hold sufficient assets to pay / extend employee benefits.

The Company provides Provident Fund facility to all employees and Superannuation benefits to selected employees. The contributions are expensed as they are incurred in line with the treatment of wages and salaries. The Company's Provident Fund is exempted under section 17 of Employees' Provident Fund and Miscellaneous Provision Act, 1952. Conditions for exemption stipulate that the Company shall make good deficiency, if any, in the interest rate declared by the trust vis-s-vis interest rate declared by the Employees' Provident Fund Organisation. The liability as on the balance sheet date is ascertained by an independent actuarial valuation.

iii) Defined benefit plans

The cost of providing defined benefit plans are determined using the projected unit credit method, with independent actuarial valuations being carried out at the end of each reporting period. The Company provides gratuity to its employees and pension to retired whole-time directors. Gratuity liabilities are funded and managed through separate trust (except in case of some of the employees of Port and Yard Equipment Division where the funds are managed by Life Insurance Corporation of India). The liabilities towards pension to retired whole-time directors are not funded.

Remeasurements, comprising actuarial gains and losses, return on plan assets excluding amounts included in net interest on the net benefit liability (asset) and any change in the effect of the asset ceiling (if applicable) are recognised in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in the comprehensive income are not reclassified to the statement of profit and loss but recognised directly in the retained earnings. Past service costs are recognised in the statement of profit and loss in the period in which the amendment to plan occurs. Net interest is calculated by applying the discount rate to the net defined liability or asset at the beginning of the period, taking into account of any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments.

Defined benefit costs which are recognised in the statement of profit and loss are categorised as follows :

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements); and
- net interest expense or income.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reduction in future contributions to the plans.

Other Long-term benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised based on actuarial valuation at the present value of the obligation as on the reporting date.

Termination benefits

The liability for termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

2.10 Taxation**i) Current tax**

Current tax is payable based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Notes forming part of the standalone financial statements

02. Summary of significant accounting policies (Contd.)

ii) Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profits. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. Deferred tax assets arising from the deductible temporary differences are only recognised to the extent it is probable that there will be sufficient taxable profits against which the benefits of the temporary difference can be utilised and they are expected to reverse in the foreseeable future. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

iii) Current and deferred tax are recognised in the Statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

iv) Current and deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

2.11 Property, Plant and Equipment

Property, Plant and Equipment held for use in the production or supply of goods or services, or for administrative purposes are stated at cost or deemed cost applied on transition to Ind AS, less accumulated depreciation and accumulated impairment losses, if any. Cost includes purchase cost of materials, including import duties and non-refundable taxes, any directly attributable costs of bringing an asset to the location and condition of its intended use and borrowing costs capitalised in accordance with the Company's accounting policy.

Properties in the course of construction for production or supply of goods or services or for administrative purposes are carried at cost, less any recognised impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than properties under construction) less their residual values over the useful lives, using the straight-line method. Depreciation of assets commences when the assets are ready for their intended use. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the effect of any changes is accounted as change in estimate on a prospective basis.

Estimated useful lives of the assets are as follows:

Buildings and Roads	:	5 to 60 years
Plant and Equipment	:	3 to 15 years
Electrical Installations	:	10 years
Laboratory Equipment	:	10 years
Furniture and Fixtures	:	10 years
Office Equipments	:	3 to 5 years
Computers	:	3 years
Motor Vehicles	:	5 to 8 years

Notes forming part of the standalone financial statements**02. Summary of significant accounting policies (Contd.)**

Right of use assets : **Lease period 4 to 7 years**

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is recognised in the Statement of Profit and Loss.

2.12 Intangible assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Amortisation is recognised on straight-line basis over the estimated useful lives of assets. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses, if any.

Estimated useful lives of the intangible assets are as follows:

Software : **1 to 10 years**

An intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of intangible assets is recognised in the Statement of Profit and Loss.

2.13 Impairment of tangible and intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered any impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of an asset or cash generating unit is estimated to be less than the carrying amount, the carrying amount of the asset or cash generating unit is reduced to its recoverable amount. An impairment loss is recognised immediately in the Statement of Profit and Loss. When an impairment loss subsequently reverses, the carrying value of the asset or cash generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset or cash generating unit in prior years. Any reversal of an impairment loss is recognised immediately in the Statement of Profit and Loss.

2.14 Inventories

Raw materials, work-in-progress and finished products are valued at lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes purchase price, non-refundable taxes and duties and other directly attributable costs incurred in bringing the goods to the point of sale. Work-in-progress and finished goods include appropriate proportion of overheads.

Stores and spares are valued at cost comprising of purchase price, non-refundable taxes and duties and other directly attributable costs after providing for obsolescence and other losses, where considered necessary.

Value of inventories are generally ascertained on the "weighted average" basis.

02. Summary of significant accounting policies (Contd.)

2.15 Provisions, Contingent liabilities and Contingent assets

2.15.01 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.15.02 Warranties

Provisions for the expected cost of warranty obligations under local sale of goods legislation are recognised at the date of sale of the relevant products, at the management's best estimate of the expenditure required to settle the Company's warranty obligation.

2.15.03 Onerous contracts

An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract. Present obligation arising under onerous contracts are recognised and measured as provisions.

2.15.04 Contingent liabilities and assets

Contingent liability is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company, or is a present obligation that arises from past events but is not recognised because either it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or a reliable estimate of the amount of the obligation cannot be made. Contingent liabilities are disclosed and not recognised. In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Although there can be no assurance regarding the final outcome of the legal proceedings in which the Company is involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

2.16 Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transactions cost that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transactions cost directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognised immediately in the Statement of Profit and Loss.

Notes forming part of the standalone financial statements**02. Summary of significant accounting policies (Contd.)****2.17 Financial assets**

All regular purchases or sales of financial assets are recognised and derecognised on a transaction date basis. Regular purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

2.17.01 Amortised Cost

Financial assets having contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding and that are held within a business model whose objective is to hold such assets in order to collect such contractual cash flows are classified in this category. Subsequently, these are measured at amortised cost using the effective interest method less any impairment losses.

2.17.02 Investments in equity instruments at fair value through other comprehensive income (FVTOCI)

On initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to the Statement of Profit and Loss even on disposal of the investments.

The Company has equity investments in two entities (refer Note 7 to the standalone financial statements), and elected the irrevocable option to carry these at FVTOCI.

2.17.03 Financial assets at fair value through profit and loss (FVTPL)

Investments in equity instruments are classified as at FVTPL (except for those carried at FVTOCI, as stated above in 2.17.02). Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in the Statement of Profit and Loss and are included in "Other Income".

2.17.04 Investment in Subsidiaries, Joint ventures and Associates

Investments in subsidiaries, joint venture and associates are measured at cost as per Ind AS 27 – Separate Financial Statement.

2.17.05 Impairment of financial assets

Loss allowance for expected credit losses is recognised for financial assets measured at amortised cost and fair value through other comprehensive income.

The Company recognises lifetime expected credit losses for all trade receivables that do not contain a financing component. The Company uses the practical expedient by computing the expected credit loss allowance based on a provision matrix, as permitted under Ind AS 109. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information.

For financial assets (apart from trade receivables, as above) whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised. Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk of the financial asset has significantly increased since initial recognition.

02. Summary of significant accounting policies (Contd.)

2.17.06 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flow from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of financial asset in its entirety, the difference between the asset's carrying amounts and the sum of the consideration received and receivable is recognised in the Statement of Profit and Loss.

2.17.07 Foreign exchange gain and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in the Statement of Profit and Loss.

Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in other comprehensive income.

2.17.08 Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income / expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premium or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in the statement of profit and loss and is included in the "Other income" line item

2.18 Financial liabilities and equity instruments

2.18.01 Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

2.18.02 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

2.18.03 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Notes forming part of the standalone financial statements**02. Summary of significant accounting policies (Contd.)****(i) Financial liabilities subsequently measured at amortised cost**

All financial liabilities (other than those mention in (ii) below) are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method.

(ii) Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either a derivative instrument (not designated in hedging relationship), contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 applies, is held for trading, it is designated as at FVTPL.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in the Statement of Profit or Loss and is included in the 'Other income'.

2.18.04 Financial guarantee contracts

These are initially measured at their fair values and, are subsequently measured at the higher of the amount of loss allowance determined or the amount initially recognised less, the cumulative amount of income recognised.

2.18.05 Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments and are recognised in the Statement of Profit and Loss and are included in 'Other expenses/Other income'.

For financial liabilities carried at FVTPL, the fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. The gain or loss on translation of foreign exchange is recognised in the Statement of Profit and Loss and forms part of the fair value gains or losses.

2.18.06 Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the Statement of Profit and Loss.

2.18.07 Derivative financial instruments

The Company enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks, including foreign exchange forward contracts, interest rate swaps and cross currency swaps.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in the Statement of Profit and Loss immediately unless the derivative is designated as a hedging instrument, in which event the timing of the recognition in the Statement of Profit and Loss depends on the nature of the hedging relationship and the nature of the hedged item.

2.19 Segment

Information reported to the Chief operating decision maker (CODM) for the purpose of resource allocation and assessment of segment performance focuses based on products and services. Accordingly, directors of the Company have chosen to organise the segment based on its product and services as follows:

- Products & services
- Project & services.

The Company's chief operating decision maker is the Managing Director.

Revenue and expenses directly attributable to segment are reported under each reportable segment. Expenses which are not directly identifiable to each reporting segment have been allocated on the basis of associated revenue of the segment and manpower efforts. All other expenses which are not attributable or allocable to segments have been disclosed as Unallocable expenses.

Assets and liabilities that are directly attributable or allocable to segments are disclosed under each reportable segment. All other assets and liabilities are disclosed as Unallocable.

The company's financing and income taxes are managed on a company level and are not allocated to operating segment.

2.20 Earning per share

Basic earnings per share is computed by dividing the profit attributable to the ordinary equity holders (i.e., Profit after tax) by the weighted average number of shares outstanding during the financial year.

Diluted earnings per share is computed using the weighted average number of share outstanding during the financial year and dilutive potential shares, except where the result would be anti-dilutive.

2.21 Rounding off

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs (upto two decimals) as per the requirements of Schedule III, unless otherwise stated.

2.22 New and amended standards adopted by the Company:

The Company has applied the following standards and amendments for the first time for their annual reporting period commencing from April 01, 2019.

- Ind AS 116, Leases
- Amendment to Ind AS 12, Income Taxes

The Company had to change its accounting policies as a result of adopting Ind AS 116, The impact of which is disclosed in note 04. The other amendments listed above did not have any impact on the amounts recognized in the prior periods and are not expected to significantly affect the current and future period.

Notes (Right of use and Lease liabilities) :

- As indicated in note 2.06, with effective April 01, 2019, the company has adopted Ind AS 116 "Leases" and applied the standard to lease arrangements existing on the date of initial application using the modified retrospective approach with right-of-use asset recognized at an amount equal to the lease liability adjusted for any prepayments/accruals recognized in the balance sheet immediately before the date of initial application. Accordingly, comparatives for the year ended March 31, 2019 have not been retrospectively adjusted.
- On adoption of Ind AS 116, the Company has recognised right of use assets and lease liabilities in relation to leases which was previously recognised as "operating leases" under the principles of IndAS 17, Leases. The right of use assets and lease liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate applied to the lease liabilities as on April 01, 2019.
- Rs. 77.76 lakhs is towards lease of land/ premises/facilities, etc are secured by the rights to the leased assets recognised in the financial statements as Right of Use, revert to the lessors in the event of default. The discount rate is between the range of 11.50% to 12.50% pa.

Rights, preferences and restrictions attached to shares

Equity shares

The Company has one class of equity shares having a par value of Rs.10 per share. Each shareholder is entitled for one vote per share held. The dividend proposed by the board of directors is subject to the approval of the shareholders in the ensuing annual general meeting, except in case of interim dividend. In the event of liquidation, the equity shareholders are entitled to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to the number of equity shares held by the shareholders.

Preference Shares

The Company has one class of 12.5% Non-Convertible Redeemable Preference Share("NCRPS") having a par value of Rs.10 per share. Each Preference shareholder is eligible for one vote per share as per the terms of Section 47(2) of the Companies Act 2013 and dividend as and when declared by the Company. As per terms of Preference shares, NCRPS shall be redeemable at par upon the maturity or redeemed early at the option of the Company in full or in part at 3 monthly intervals from the date of allotment. In the event of winding up of Company, NCRPS shall be non- participating in surplus assets and profit which may remain after the entire capital has been repaid, on winding up of the Company.

Nature and Purpose:

(a) Equity Component of 12.5% Non Convertible Redeemable Preference Shares:

During the year ended March 31, 2019, the company had issued 12.5% Non Convertible Redeemable Preference Shares ('NCRPS') of Rs. 25,000 lakhs, divided in to 25,00,00,000 preference shares of Rs. 10 each to Tata Steel Limited, on private placement basis. NCRPS are in nature of compound financial instrument, accordingly the liability portion disclosed under long term borrowings and residual portion is disclosed under other equity (refer note 44.07).

(b) General reserve :

The general reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to profit or loss.

(c) FVOCI-Equity Investment :

This reserve represents the cumulative gains and losses arising on the revaluation of equity instruments measured at fair value through OCI, net of amounts reclassified to the retained earnings when those assets have been disposed off.

(d) Foreign exchange fluctuation reserve :

Foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit and loss on repayment of the monetary items or disposal of investment.

(e) Foreign currency monetary item translation difference reserve :

Exchange differences arising on settlement and remeasurement of long-term foreign currency monetary items are accumulated in "Foreign Currency Monetary Item Translation Difference Account" and amortised over the maturity period or upto the date of settlement of such monetary items, whichever is earlier, and charged to the Statement of Profit and Loss.

39. Employee Benefit plans

39.01 Defined contribution plans

The Company provide Provident Fund facility to all employees. The Company provides superannuation benefits to selected employees. The assets of the plans are held separately from those of the Company in funds under the control of the trustees in case of trust or of the employees provident fund organisation. The contributions are expensed as they are incurred in line with the treatment of wages and salaries. The Company's Provident Fund is exempted under section 17 of Employees' Provident Fund and Miscellaneous Provision Act, 1952. Conditions for exemption stipulate that the Company shall make good deficiency, if any, in the interest rate declared by the trust vis-a-vis interest rate declared by the Employees' Provident Fund Organisation. The liability as on the balance sheet date is ascertained by an independent actuarial valuation.

The Company has recognised an amount of **Rs. 456.23 lakhs** as expenses for the year ended March 31, 2020 (March 31, 2019: Rs. 423.93 lakhs) towards contribution to the following defined contribution plans.

	456.23	423.93

39.02 Defined benefit plans

The Company provides Gratuity benefit to all employees. The Company provides post retirement pension for retired whole-time directors. The assets of the gratuity plans are held separately from those of the Company in funds under the control of the trustees of the independent trusts or with the life insurance companies. The board of trustees of the gratuity fund composed of an equal number of representatives from both employees and employers. The board of the Fund is required by law and by the trust deed to act in the interest of the Fund and of all relevant stakeholders in the scheme. The board of trustee of the fund and management of life insurance company is responsible for the investment policy with regard to the assets of the Fund. Post retirement pension plan is not funded.

Under the gratuity plan, the employees with minimum five years of continuous service are entitled to lumpsum payment at the time of separation calculated based on the last drawn salary and number of years of service rendered with the Company. Under the post retirement pension, the Company pays monthly pension to retired whole-time directors as decided by the board of directors.

These plans expose the Company to actuarial risks such as investment risk, interest rate risk, longevity risk and salary risk.

Notes forming part of the standalone financial statements

- Investment Risk** : The present value of the defined benefit plan liability (denominated in Indian Rupee) is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. Currently, for the plan in India, it has relatively balanced mix of investments in government securities and other debt instruments.
- Interest risk** : A decrease in the bond interest rate will increase the plan liability.
- Longevity risk** : The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
- Salary risk** : The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

In respect of the plan in India, the most recent actuarial valuation of the plan assets and the present value of defined benefit obligation were carried out as at March 31, 2020 by an independent actuary, Fellow of the Institute of Actuaries of India. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

During the year ended March 31, 2020 and March 31, 2019 there was no amendment, curtailments and settlements in the gratuity plan and post retirement pension plans.

	Year ended 31.03.2020 Rs. lakhs	Year ended 31.03.2019 Rs. lakhs
Expected employer contribution for the period ending 31 March 2021	Rs. 85.27 lakhs	
Weighted average duration of defined benefit obligation	7 years	8 years
Principal assumption used for the purpose of the actuarial valuation		
(a) Discount rate	6.50%	7.50%
(b) Expected rate(s) of salary income	8.00%	8.00%

The fair value of the above equity and securities issued by government are determined based on quoted market prices in active markets. The fair value of other debt instruments are also determined based on quoted price in active market. The fair value of balance in special deposit scheme is determined based on its carrying value. The fair value of balance with Life Insurance Corporation is determined based on the funds statement received from the company.

The actual return on plan assets was **Rs. 35.15 lakhs** (March 31, 2019: Rs. 41.98 Lakhs).

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase, attrition and mortality. The sensitivity analysis given below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

- If the discount rate is 100 basis points higher (lower), the defined benefit obligation would decrease by **Rs. 102.78 lakhs** (increase by **Rs. 120.19 lakhs**) [March 31, 2019: decrease by Rs. 93.56 lakhs (increase by Rs. 108.27 lakhs)]
- If the expected salary increase growth increases (decreases) by 1%, the defined benefit obligation would increase by **Rs. 117.29 lakhs** (decrease by **Rs. 102.40 lakhs**) [March 31, 2019: increase by Rs. 106.74 lakhs (decrease by Rs. 94.03 lakhs)]

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is likely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

In presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is same as applied in calculating the defined benefit obligation liability recognised in the balance sheet. There was no change in the method and assumptions used in preparing the sensitivity analysis from prior years.

Principal assumption used for the purpose of the actuarial valuation		
(a) Discount rate	6.50%	7.50%
(b) Expected rate(s) Pension increase	3.00%	3.00%

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected pension increase and mortality. The sensitivity analysis given below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

- If the discount rate is 100 basis points higher (lower), the defined benefit obligation would decrease by **Rs. 75.51 lakhs** (increase by **Rs. 86.65 lakhs**) [March 31, 2019: decrease by Rs. 66.12 lakhs (increase by Rs. 75.88 lakhs)]
- If the expected pension increase growth increases (decreases) by 1%, the defined benefit obligation would increase by **Rs. 88.89 lakhs** (decrease by **Rs. 78.61 lakhs**) [March 31, 2019: increase by Rs. 78.63 lakhs (decrease by Rs. 69.44 lakhs)]

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is likely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

In presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is same as applied in calculating the defined benefit obligation liability recognised in the balance sheet. There was no change in the method and assumptions used in preparing the sensitivity analysis from prior years.

40.01 Capital management

The Company manages its capital to ensure that entities will be able to continue as going concerns while maximising the return to stakeholders through the optimisation of the debt and equity balance. The Capital structure of the Company consists of net debt (borrowings as detailed in notes 17 and 24 offset by cash and bank balances) and the total equity of the Company.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, long-term borrowings, short-term borrowings, less cash and short-term deposits.

Gearing Ratio

The gearing ratio at end of the reporting period was as follows :

40.02 Financial risk management objectives and policies

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings and trade and other payables. The Company's principal financial assets include trade and other receivables, cash and short-term deposits that derive directly from its operations. The Company also holds FVTOCI investments and enters into derivative transactions. The Company is exposed to market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The Company seeks to minimise the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives is governed by the Company's policies approved by the board of directors, which provide written principles on foreign exchange risks, interest rate risk, credit risk, the use of financial derivatives and non-derivative financial instruments. The Company does not enter into or trade financial instruments including derivative financial instruments, for speculative purposes.

The corporate treasury management reports on quarterly basis to the board of directors that monitors risks and policies implemented to mitigate risk exposures.

40.03 Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Company enters into derivative financial instruments to manage its exposure to foreign currency risk and interest rate risk.

Foreign currency sensitivity analysis

The following table details the Company's sensitivity to a 10% increase and decrease in exchange rate between the pairs of currencies. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for 10% change in foreign currency rates. The sensitivity analysis includes trade payables, receivables, external loans as well as loans to foreign operations within the Group where the denomination of the monetary item is in a currency other than the functional currency of the lender or the borrower. The sensitivity analysis has been undertaken on net unhedged exposure in foreign currency.

40.05 Interest rate risk management

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of change in market interest rates. The company's exposure to the risk of changes in market interest rates relates primarily to the company's long-term debt obligations with floating interest rates.

40.06 Credit risk management

Credit risks refers to risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk encompasses both the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks. The Company's Board approved financial risk policies comprise liquidity, currency, interest rate and counterparty risk. Financial instruments that are subject to concentrations of credit risk, principally consist of trade receivables, finance receivables, loans and advances and derivative financial instruments. None of the financial instruments of the Company result in material concentrations of credit risks. The Company does not engage in speculative treasury activity but seeks to manage risk and optimise interest and commodity pricing through proven financial instruments.

The credit risk on bank balances and derivative financial instruments is limited because the counterparties are banks with high credit ratings.

Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable.

40.07 Liquidity risk management

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The Company has obtained fund and non-fund based working capital loan from various banks and issued Non Convertible Redeemable Preference Shares to Tata Steel Limited. The Company manages liquidity risk by maintaining adequate reserves, banking facilities, financial support from the promoter and undrawn borrowing facilities, by continuously monitoring forecasts and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

Liquidity and interest risk tables

The following tables detail the maturity profile of Company's non-derivative financial liabilities with agreed repayment period. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 — Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 — Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The investments included in Level 2 of fair value hierarchy have been valued using quotes available for similar assets and liabilities in the active market. The investments included in Level 3 of fair value hierarchy have been valued using the cost approach to arrive at their fair value. The cost of unquoted investments approximate the fair value because there is a wide range of possible fair value measurements and the cost represents estimate of fair value within that range.

The following table summarises the financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosure are required):

CANYON has vide its letter dated September 16, 2019, expressed its inability to complete the transactions as per SPA dated May 17, 2019 citing occurrence of Material Adverse Changes and has terminated the said SPA with immediate effect. The above development does not have any impact on these standalone financial statements.

44.05 On September 04, 2019 TRF Singapore Pte Ltd has divested its stake in Hewitt Robins International Holdings Limited ('HRIHL') and its subsidiary Hewitt Robins International Limited ('HRIL') for a consideration of Rs. 3,086.67 lakhs (**SGD 6.05 million**). The above transaction does not have any impact on these standalone financial statements.

Notes forming part of the standalone financial statements

- 44.06 The Hon'ble Supreme Court of India in its judgment in the matter of Vivekananda Vidyamandir & Others Vs The Regional Provident Fund Commissioner (II) West Bengal laid principles in relation to non-exclusion of certain allowances from the definition of "basic wages" for the purposes of determining contribution to provident fund under the Employees' Provident Funds & Miscellaneous Provisions Act, 1952. Based on initial assessment performed by the company, the order did not result in any impact on these standalone financial statements. The management will continue to assess the impact of further developments in this regard and deal with it accordingly.
- 44.07 During the year ended March 31, 2019, the company had issued 12.5% Non convertible redeemable preference shares of Rs. 25,000 lakhs, divided in to 25,00,00,000 preference shares of Rs. 10 each to Tata Steel Limited, on private placement basis. NCRPS is in nature of compound financial instrument, accordingly the liability portion of Rs. 2,370.77 lakhs (March 31, 2019: Rs. 2,370.77 lakhs) grouped under borrowing (refer note 17) and balance portion of Rs. 22,629.23 lakhs (March 31, 2019: Rs. 22,629.23 lakhs) grouped under other equity (refer note 16).
- 44.08 During the year ended March 31, 2019, the company had sold York Transport Equipment Pte Limited, a step down subsidiary along with its subsidiaries, at total consideration of Rs. 29,087.69 lakhs. Consequent to such sale TRF Singapore Pte Limited has exercised a scheme of capital reduction to the tune of Rs. 12,185.28 lakhs on August 31, 2018 and Rs. 1,380.40 lakhs on February 28, 2019 which has resulted in reduction in value of investment by Rs. 9,790.46 lakhs and foreign currency exchange gain of Rs. 3,775.22 lakhs which has been disclosed as exceptional item in the Statement of Profit & Loss.
- 44.09 During the year ended March 31, 2019, Interest on loans and Corporate guarantee fees receivable from subsidiary was converted into Investment in TRF Singapore Pte Limited which has resulted in increase in value of Investment to Subsidiaries by Rs. 978.21 lakhs.
- 44.10 The Company submitted application to RBI in 2013 for capitalisation of corporate guarantee fee (SGD 1,51,230) and interest on loan (USD 7,19,461 and SGD 7,36,637) receivable from TRF Singapore Pte Limited. The same was approved by RBI vide letter dated September 11, 2018 subject to compounding for non-compliance with Regulation 15(ii) for Foreign Exchange Management (Transfer or Issue of Any Foreign Security) (Amendment) Regulations, 2004. The Company filed an application on October 12, 2018 but RBI has advised to resubmit the application along with the same in connection with another matter in respect of one of its step down subsidiary, pending with RBI.
- 44.11 During the current year, the Company has carried out a restructuring of its top management to create a sustainable organisation. Subsequent to change in management from November 13, 2019, a review of certain matters were also carried out by the Company, however no significant findings were noted from the said review. The Company's management is committed in bringing in more focus and agility to meet the Company's objective to build a sustainable organisation.
- 44.12 During the year ended March 31, 2019, the company has made provision for impairment of Rs. 133.18 Lakhs for investment in TRF Singapore PTE Ltd. In view of the management no further provision is required in the current year.
- 44.13 Remuneration to Managing Director amounting to Rs. 136 lakhs has been approved by the Board of Directors and is subject to approval from shareholders in the ensuing annual general meeting.
- 44.14 Consequent to the nationwide lockdown announced on March 24, 2020 the Company suspended its operations from the said date and has resumed limited operations after obtaining necessary permissions from authorities. The Company has assessed the impact of COVID-19 on the financial statements, current business operations, liquidity position, cash flow and has concluded that no material adjustments are required in the financial statements. The company will continue to monitor the impact of COVID-19 and any material changes to future economic conditions.

INDEPENDENT AUDITOR'S REPORT**To the Members of TRF Limited****Report on the audit of the Consolidated Financial Statements****Opinion**

1. We have audited the accompanying Consolidated Financial Statements of TRF Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), and jointly controlled entity (refer Note 38 to the attached Consolidated Financial Statements), which comprise the consolidated Balance Sheet as at March 31, 2020, and the consolidated Statement of Profit and Loss (including Other Comprehensive Income), the consolidated statement of changes in equity and the consolidated cash flows Statement for the year then ended, and notes to the Consolidated Financial Statements, including a summary of significant accounting policies and other explanatory information prepared based on the relevant records (hereinafter referred to as "the Consolidated Financial Statements").
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and jointly controlled entity as at March 31, 2020, of consolidated total comprehensive income (comprising of loss and other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and jointly controlled entity in accordance with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements in India in terms of the Code of Ethics issued by ICAI and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph 18 of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

4. We draw attention to Note 50 to the Consolidated Financial Statements with respect to the losses incurred by the holding company, erosion of its net worth and preparation of the Consolidated Financial Statements on going concern assumption based on the reasons and assumptions stated in the aforesaid note. These events, along with the other matters set out in the Note indicate that a material uncertainty related to the going concern assumption exists and the holding company's ability to continue as a going concern is dependent on the financial support from the promoter and generation of the expected cash flows through operations, to be able to meet its obligations as and when they arise. Our opinion is not modified in respect of this matter.

Emphasis of Matter

5. We draw your attention to the following matters:
 - a) Note 53 to the Consolidated Financial Statements which states that the Reserve Bank of India (RBI) had approved conversion of certain receivables from one of its wholly owned subsidiary (WOS) to equity, subject to the Holding Company applying for compounding of its offence in respect of non-remittance of the said receivables in foreign currency from the WOS. Though the Holding Company had applied to the RBI for compounding, the same has not been accepted by RBI pending fulfilment of other conditions laid by RBI as specified in the note.

INDEPENDENT AUDITOR'S REPORT

To the Members of TRF Limited

Report on the audit of the Consolidated Financial Statements

- b) Note 54 of the Consolidated Financial Statements, which describes the Holding Company management's assessment of the financial impact of the events arising out of Coronavirus (Covid-19) pandemic, for which a definitive assessment of the impact in the subsequent period is dependent upon the circumstances as they evolve.

Our opinion is not modified in respect of these matters.

Key Audit Matters

- 6. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the 'Material Uncertainty Related to Going Concern' section of our report, we have determined the matters described below to be the key audit matters to be communicated in our report.

Appropriateness of estimation of cost to complete the projects

Description of Key Audit Matter

(Refer to Note 51 to the Consolidated Financial Statements)

The Holding Company recognizes revenue from construction contracts on percentage completion method as specified under Indian Accounting Standards (IndAS) 115 - Revenue from Contracts with Customers. Determination of revenue requires estimation of total contract costs which is done based on the actual cost incurred till date and the cost to be incurred to complete the projects. The estimation of cost to complete involves exercise of significant judgement by the management and assessment of project data, making forecasts and assumptions.

This has been considered as a key audit matter given the involvement of management judgement and any variation may have consequential impact on the recognised revenue.

How our audit addressed the key audit matter

We have performed the following procedures among others:

- a) Understood and evaluated the design and tested the operating effectiveness of controls around estimation of costs to complete including the review and approval of estimated project cost.
- b) Verified the contracts on test check basis entered by the Holding Company for the consideration and relevant terms and conditions relating to variations to the cost.
- c) Obtained computation of estimated costs to complete and the percentage of project completion and verified the same against the contractual terms and the work orders placed with vendors.
- d) Verified invoices, purchase orders, receipts etc. for the actual costs incurred upto the year end date.
- e) Discussed the status of the projects with the Holding Company's project management team and evaluated the reasonableness of the estimates made by the management of costs to be incurred for completion of the respective projects.
- f) Verified the revision in total cost of the contracts by comparing the management estimates revised during the current year with the estimate made in earlier years and obtained reasons for such revision, including verification of correspondence with the vendors in case of renegotiation of prices and the approvals for the same.

Based on the above procedures performed, we considered the management's estimation of cost to complete the project to be reasonable.

INDEPENDENT AUDITOR'S REPORT**To the Members of TRF Limited****Report on the audit of the Consolidated Financial Statements****Other Information**

7. The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's report and management discussion analysis, but does not include the Consolidated Financial Statements and our auditor's report thereon.
8. Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.
9. In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed and the reports of the other auditors as furnished to us (Refer paragraph 18 below), we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

10. The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Financial Statements in term of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows, and consolidated changes in equity of the Group including Jointly controlled entity in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group and jointly controlled entity are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Holding Company, as aforesaid.
11. In preparing the Consolidated Financial Statements, the respective Board of Directors of the companies included in the Group and jointly controlled entity are responsible for assessing the ability of the Group and jointly controlled entity to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
12. The respective Board of Directors of the companies included in the Group and jointly controlled entity are responsible for overseeing the financial reporting process of the Group and jointly controlled entity.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

13. Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

INDEPENDENT AUDITOR'S REPORT

To the Members of TRF Limited

Report on the audit of the Consolidated Financial Statements

14. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also :
- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding company has adequate internal financial controls with reference to Consolidated Financial Statements in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and jointly controlled entity to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and jointly controlled entity to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
 - Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and jointly controlled entity to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the Consolidated Financial Statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.
15. We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
16. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

INDEPENDENT AUDITOR'S REPORT**To the Members of TRF Limited****Report on the audit of the Consolidated Financial Statements**

17. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

18. We did not audit the financial statements/financial information of 6 subsidiaries whose financial statements/ financial information reflect total assets of Rs 24,591.56 Lakhs and net assets of Rs 19,178.94 Lakhs as at March 31, 2020, total revenue of Rs. 6,876.91 Lakhs, total comprehensive income (comprising of loss and other comprehensive income) of Rs 1,889.31 Lakhs and net cash flows amounting to Rs 3,988.81 Lakhs for the year ended on that date, as considered in the Consolidated Financial Statements. The Consolidated Financial Statements also include the Group's share of total comprehensive income (comprising of profit and other comprehensive income) of Rs. 24.25 Lakhs and Rs. 0.22 Lakhs for the year ended March 31, 2020 as considered in the Consolidated Financial Statements, in respect of 1 joint venture respectively, whose financial statements/ financial information have not been audited by us.

These financial statements/ financial information have been audited by other auditors whose reports have been furnished to us by the Management, and our opinion on the Consolidated Financial Statements insofar as it relates to the amounts and disclosures included in respect of these subsidiaries, joint venture and our report in terms of sub-section (3) of Section 143 of the Act including report on Other Information insofar as it relates to the aforesaid subsidiaries and joint ventures, is based solely on the reports of the other auditors.

Our opinion on the Consolidated Financial Statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

19. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
- We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.
 - In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
 - The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive income), Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account and records maintained for the purpose of preparation of the Consolidated Financial Statements.
 - In our opinion, the aforesaid Consolidated Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.
 - On the basis of the written representations received from the directors of the Holding Company as on March 31, 2020 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies and jointly controlled company incorporated in India, none of the directors of the Group companies and jointly controlled company incorporated in India is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164(2) of the Act.

Annexure A to Independent Auditors' Report

Referred to in paragraph 19(f) of the Independent Auditors' Report of even date to the members of TRF Limited on the Consolidated Financial Statements for the year ended March 31, 2020

Report on the Internal Financial Controls with reference to Consolidated Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Act

1. In conjunction with our audit of the Consolidated Financial Statements of the TRF Limited (hereinafter referred to as "the Holding Company") as of and for the year ended March 31, 2020, we have audited the internal financial controls with reference to Consolidated Financial Statements of the Holding Company and jointly controlled company, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding company and jointly controlled company, to whom reporting under clause (i) of sub section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls with reference to financial statements, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on "internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to Consolidated Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Consolidated Financial Statements was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Consolidated Financial Statements included obtaining an understanding of internal financial controls with reference to Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Consolidated Financial Statements.

Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial control with reference to financial statements is a process designed to provide

Annexure A to Independent Auditors' Report

Referred to in paragraph 19(f) of the Independent Auditors' Report of even date to the members of TRF Limited on the Consolidated Financial Statements for the year ended March 31, 2020

reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company and jointly controlled company, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to Consolidated Financial Statements and such internal financial controls with reference to Consolidated Financial Statements were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. Also refer paragraph 5(b) of the main audit report.

Other Matters

9. Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to Consolidated Financial Statements in so far as it relates to one jointly controlled company, which is a company incorporated in India, is based on the corresponding report of the auditors of such company incorporated in India. Our opinion is not modified in respect of this matter.

Notes forming part of the Consolidated financial statements

1. General corporate information

TRF Limited ("the Company") incorporated and domiciled in India has its Registered Office at 11, Station Road, Burma Mines, Jamshedpur – 831 007. The Company is a public limited company incorporated on November 20, 1962, having its equity shares listed on the National Stock Exchange of India Limited, BSE Limited and The Calcutta Stock Exchange Limited. The Company, its subsidiaries as specified in note 38 constitute the 'TRF Group' or 'Group' and includes the economic interest in the Group's joint ventures. The Group undertakes turnkey projects of material handling for the infrastructure sector such as power and ports and industrial sector such as steel plants, cement, fertilisers and mining. The Group is also engaged in production of such material handling equipments at its manufacturing facility at Jamshedpur in India and Dankotuwa and Gonawala in Sri Lanka.

The consolidated financial statements of the Group are presented in Indian Rupee (INR) which is also the Company's functional currency, being the currency of the primary economic environment in which the Company operates.

2. Summary of significant accounting policies

2.1 Statement of compliance

The consolidated financial statements for the year ended March 31, 2020 have been prepared in accordance with Indian Accounting Standards ("IndAS") notified under Section 133 of Companies Act, 2013 ('the Act') read with Companies (Indian Accounting Standard) Rules 2015 (the Rules), as amended, and other relevant provisions of the Act.

2.2 Basis of preparation

The consolidated financial statements of the Group are prepared under the historical cost convention except for certain assets and liabilities that are required to be carried at fair values, as per relevant Ind ASs. Historical cost is generally based on fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

Fair value measurements are categorized into Level 1, 2 or 3, based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety (refer note 43.08).

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Above levels of fair value hierarchy are applied consistently and generally, there are no transfers between the levels of the fair value hierarchy unless the circumstances change warranting such transfer.

Notes forming part of the Consolidated financial statements

2. Summary of significant accounting policies (Contd..)

2.3 Operating cycle for current and non-current classification

All the assets and liabilities have been classified as current and non-current as per Group's operating cycle set out in the Schedule III (Division II) of the Act. Operating cycle for the business activities of the Group covers the duration of the specific project/ contract/ product line/ service including the defect liability period wherever applicable and extends up to the realisation of receivables (including retention monies) within the agreed credit period normally applicable to the respective lines of business.

2.4 Use of estimates

The preparation of consolidated financial statements in conformity with the recognition and measurement principles of IndAS requires the management of the Group to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the consolidated financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements are included in the following notes :

- Revenue from construction contracts [refer note 2.09(ii)]
- Useful lives of property, plant and equipment & intangible assets [refer note 2.15 and 2.16]
- Assets and obligations relating to employee benefits [refer note 42]
- Valuation and measurement of income taxes and deferred taxes [refer note 2.14]
- Allowances for expected credit losses [2.21.4]
- Provisions and Contingencies [refer Note 2.19]
- Retention money receivable [refer note 13]
- Going Concern [refer Note 50]
- Impairment of Goodwill [refer note 5]

2.5 Basis of consolidation

The consolidated financial statements comprise of financial statements of the Company, its subsidiaries and includes Group's share of net assets of its joint venture accounted for using the equity method, explained below.

Subsidiaries

Subsidiaries are entities controlled by the Group. Control exists where the Group has power over the investee and is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power to direct the relevant activities of the investee. In assessing control, potential voting rights that is currently exercisable are taken into account. Subsidiaries are fully consolidated from the date on which control is acquired and are deconsolidated from the date control ceases.

Notes forming part of the Consolidated financial statements

2. Summary of significant accounting policies (Contd..)

The Group combines the financial statements of the Company (parent) and its subsidiaries line by line, adding together like items of assets, liabilities, equity, income and expenses. Inter-company transactions and balances including unrealised profits are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

Non-controlling interests in the net assets (excluding goodwill) of consolidated subsidiaries are identified separately from the Group's equity. The interest of non-controlling shareholders may be initially measured either at fair value or at the noncontrolling interests' proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity. Total comprehensive income is attributed to non-controlling interests even if it results in the non-controlling interest having a deficit balance.

Interests in joint arrangements

A joint arrangement is an arrangement of which two or more parties have joint control. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

Joint ventures

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. The results, assets and liabilities of a joint venture are incorporated in these consolidated financial statements using the equity method of accounting as described below.

Equity method of accounting (equity accounted investees)

An interest in an associate or joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture and are recognised initially at cost. The Group's investment includes goodwill identified on acquisition, net of any accumulated impairment losses. The consolidated financial statements include the Group's share of profits or losses and equity movements of equity accounted investees, from the date, significant influence or joint control commences until the date such significant influence or joint control ceases. When the Group's share of losses exceeds its interest in an equity accounted investee, the carrying amount (including any long-term investments in the nature of net investments) is reduced to nil and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the investee. When the Group transacts with an associate or joint venture, unrealised profits and losses are eliminated to the extent of the Group's interest in such associate or joint venture.

Changes in the Group's ownership interest in existing subsidiaries

Changes in the Group's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference

Notes forming part of the Consolidated financial statements

2. Summary of significant accounting policies (Contd..)

between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Group.

When the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. Amounts previously recognized in other comprehensive income in relation to the subsidiary are accounted for (i.e., reclassified to profit or loss) in the same manner as would be required if the relevant assets or liabilities were disposed off. The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under Ind AS 109 – Financial Instruments: Recognition and Measurement or, when applicable, the cost on initial recognition of an investment in an associate or jointly controlled entity.

2.6 Business Combinations

Acquisitions of subsidiaries and businesses are accounted for using the acquisition method. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition are recognised at their fair value at the acquisition date, except certain assets and liabilities required to be measured as per the applicable standards. Excess of the considerations transferred and the amount recognised for non-controlling interests in the acquired entity over the fair value of identifiable assets acquired, liabilities and contingent liabilities assumed, is recognised as goodwill. If the fair values of identifiable assets acquired, liabilities and contingent liabilities assumed, exceeds the consideration transferred and the amount recognised for non-controlling assets, such excess is referred to as 'bargain purchase gain' and are recognised in other comprehensive income and accumulated in equity as capital reserve. However, if there does not exist clear evidence of the underlying reasons for classifying the business combination as a bargain purchase, the excess is recognised directly in equity as capital reserve.

The Group before recognising any bargain purchase gain, re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in a bargain purchase gain, such gain is recognised directly in 'capital reserve' or recognised in other comprehensive income and accumulated in equity as capital reserve, as stated above.

Acquisition related costs are recognised in the consolidated statement of profit and loss, as incurred.

2.7 Goodwill

Goodwill arising on an acquisition of business is measured at cost (being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests and over the net identifiable assets acquired and liabilities assumed). After initial recognition, Goodwill is measured at cost less accumulated impairment losses, if any. For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units that is expected to benefit from the synergies of the combination. A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on pro-rated basis on the carrying amount of each asset in

Notes forming part of the Consolidated financial statements

2. Summary of significant accounting policies (Contd..)

the unit. Any impairment loss for goodwill is recognised directly in the consolidated statement of profit and loss. Any impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

2.8 Non-current assets (or disposal group) classified as held for sale and discontinued operations

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through sale transaction rather than through continuing use and sale is considered highly probable. Disposal group is available for immediate sale in its present condition and is marketed for sale at a price that is reasonable in relation to its current fair value. The Group must also be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification. They are measured at the lower of their carrying value and fair value less costs to sell.

Where a disposal group represents a separate major line of business or geographical area of operations, or is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations, then it is treated as a discontinued operation. The post-tax profit or loss of the discontinued operation together with the gain or loss recognised on its disposal are disclosed as a single amount in the consolidated statement of profit and loss, with all prior periods being presented on this basis.

2.9 Revenue recognition

The Group is in the business of supply, erection and commissioning of bulk material handling equipment. The equipment and services are sold both on their own in separate identified contracts with customers and together as a bundled package of goods and/or services. The Group is also engaged in production of material handling equipment at its manufacturing plant in Jamshedpur in India.

The Group recognises revenue from contract with customers when it satisfies the performance obligations by transferring promised goods or services to the customer. The revenue is recognised to the extent, transaction price allocated to the satisfied performance obligation. Performance obligation is satisfied over time when the transfer of control of asset (good or service) to a customer is done over time and in other cases, performance obligation is satisfied at a point in time. For performance obligation satisfied over time, the revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation. The progress is measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.

Transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring good or service to a customer excluding amounts collected on behalf of a third party (e.g. taxes collected on behalf of the Government). Variable consideration is estimated using the expected value method or most likely amount as appropriate in a given circumstance.

Payment terms agreed with a customer are as per business practice and there is no significant financing component involved in the transaction price.

Notes forming part of the Consolidated financial statements

2. Summary of significant accounting policies (Contd..)

Costs to obtain a contract which are incurred regardless of whether the contract was obtained are recognised as expense in the consolidated statement of profit and loss, immediately in the period in which such costs are incurred. Incremental costs of obtaining a contract, if any, and costs incurred to fulfil a contract are amortised over the period of execution of the contract in proportion to the progress measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.

i Sale of goods

For contracts with customers for sale of equipment, revenue is recognised net of discount and rebates, at a point in time when control of the asset is transferred to the customer, which is when the goods are delivered to the customers as per the terms of the contracts. Delivery happens when the goods have been dispatched or delivered to the specific location, as the case may be, the risk of loss has been transferred, and either the customer has accepted the goods in accordance with the contracts or the Group has objective evidence that all criteria related for acceptance has been satisfied.

No element of significant financing is deemed present as the sales are generally made with a credit term which is consistent with the market practice. A receivable is recognised when the goods are delivered and this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

ii Construction contracts

Revenue from contracts are recognised with reference to the stage of completion method in accordance with Ind AS – 115, Revenue from Contracts with Customers. Obligations under the long-term construction contracts are satisfied over time given that the customer simultaneously receives and consumes the benefits provided by the Group. Revenue and costs are recognised by reference to the stage of completion of the contract activity at the end of the reporting period, measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs, except where this would not be representative of the stage of completion.

The outcome of a construction contract is considered as estimated reliably when (a) all critical approvals necessary for commencement of the project have been obtained; (b) the stage of completion of the project reaches reasonable level of development. The stage of completion is determined as a proportion that contract costs incurred for work performed up to the closing date bear to the estimated total costs of respective project. Profit (contract revenue less contract cost) is recognised when the outcome of the contract can be estimated reliably and for contracts valued up to Rs. 100 Crore, profit is recognised when stage of completion is 40% or more, and for contracts valued more than Rs. 100 Crore, profit is recognised either at 25% stage of completion or an expenditure of Rs. 40 Crore whichever is higher. When it is probable that the total cost will exceed the total revenue from the contract, the expected loss is recognised immediately. For this purpose, total contract costs are ascertained on the basis of contract costs incurred and cost to completion of contract which is arrived at by the management based on current technical data, forecast and estimate of net expenditure to be incurred in future including for contingencies etc. For determining the expected cost to completion of the contract, cost of steel, cement and other related items are considered at current market price based on fixed cost purchase orders placed or firm commitments received from suppliers /

Notes forming part of the Consolidated financial statements

2. Summary of significant accounting policies (Contd..)

contractors as these purchase orders and future firm commitments are enforceable over the period of the contracts.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that is probably recoverable. Contract costs are recognised as expenses in the period in which they are incurred. When contract costs incurred to date plus recognised profit less recognised losses exceed progress billing, the surplus (i.e., contract assets) is shown as amount due from customers for contract work. For contracts where progress billings exceed contract costs incurred to date plus recognised profits less recognised losses, the surplus (i.e., contract liability), is shown as the amounts due to customers for contract work. Amounts received before the related work is performed are included under "Other current liabilities" as advances received. Amounts billed for work performed but not yet paid by customer are included under trade receivables.

iii Service Contracts

Revenue from service contracts are recognised in the accounting period in which the services are rendered. Where the contracts include multiple performance obligations, the transaction price is allocated to each performance obligation based on the standalone selling price and revenue is recognised over time as and when the customer receives the benefit of the Group's performance based on the actual service provided to as proportion of the total services to be provided. In case, the service contracts include one performance obligation revenue is recognised based on the actual service provided to the end of the reporting period as proportion of the total services to be provided. This is determined based on the actual expenditure incurred to the total estimated cost.

iv Dividend and interest income

Dividend income is recognised when the Group's right to receive payment has been established and that the economic benefits will flow to the Group and amount of income can be measured reliably.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time proportion basis, by reference to the principal outstanding and the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the asset's net carrying amount on initial recognition.

2.10 Lease

Upto March 31, 2019:

The Group as lessee

Assets taken on lease by the Group had substantially all the risks and rewards of ownership Group are classified as finance leases. Such leases are capitalised at the inception of the lease at the lower of the fair value and the present value of the minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

Notes forming part of the Consolidated financial statements

2. Summary of significant accounting policies (Contd..)

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. The Group's significant operating leasing arrangements are for premises (office, residence etc.,). The leasing arrangements which normally have a tenure of eleven months to three years are cancellable with a reasonable notice, and are renewable by mutual consent at agreed terms. The aggregate lease rent payable is charged as rent in the consolidated statement of profit and loss.

With effect from April 1, 2019

The Group as lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease agreements in which it is the lessee, except for short-term leases (leases with a lease term of 12 months or less) and leases of low value assets. For short term leases and leases of low value assets, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate, which is determined using the risk free rate for the same tenor adjusted for the credit risk associated with the lease, security etc.

Lease payments included in the measurement of the lease liability comprise fixed lease payments (including in-substance fixed payments), less any lease incentives; and any variable lease payments that are based on an index or a rate, initially measured using the index or rate at the commencement date. Lease payments to be made under reasonably certain extension options are also included in the measurement of lease liabilities.

Lease payments are allocated between the principal and finance cost. The finance cost is charged in the consolidated statement of profit and loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any.

Right-of-use assets are depreciated on straight-line basis over the period of lease term and useful life of the underlying asset, whichever is lower. If a lease transfers ownership of the underlying asset or where it is reasonably certain that the Group will exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

In applying the Ind AS 116 for the first time, the Group has used the following practical expedients permitted by the standard.

- i) applying single discount rate to a portfolio of leases with reasonably similar character.
- ii) accounted for operating leases with remaining lease term of less than 12 months as at 01.04.2019 as short term lease.

Notes forming part of the Consolidated financial statements

2. Summary of significant accounting policies (Contd..)

- iii) excluding initial direct cost for the measurement of the right-of-use assets at the date of initial application and
- iv) using hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

2.11 Foreign currencies

Transactions in currencies other than entity's functional currency (foreign currency) are recorded at the rates of exchange prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies (other than derivative contracts and net investment in non-integral foreign operations) remaining unsettled at the end of each reporting period are remeasured at the rates of exchange prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rate prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange difference on monetary items are recognised in the consolidated statement of profit and loss in the period in which they arise except for exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to the consolidated statement of profit and loss on disposal of the net investments.

2.12 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing cost eligible for capitalisation.

All other borrowing costs are recognised in the consolidated statement of profit and loss in the period in which they are incurred

2.13 Employee benefits

i. Short-term benefits

Short term employee benefits are recognised as an expense at the undiscounted amount in the consolidated statement of profit and loss of the year in which the related service is rendered.

ii. Defined contribution plans

Contributions to defined contribution plans are recognised as an expense when employees have rendered services entitling them to the contributions. Defined contribution plans are those plans where the Group pays fixed contributions to funds/schemes managed by independent trusts or authority. Contributions are paid in return for services rendered by the employees during the year. The Group has no legal or constructive obligation to pay further contributions if the fund / scheme do not hold sufficient assets to pay / extend employee

Notes forming part of the Consolidated financial statements

2. Summary of significant accounting policies (Contd..)

benefits. The Company provides Provident Fund facility to all employees and Superannuation benefits to selected employees. The contributions are expensed as they are incurred in line with the treatment of wages and salaries. The Company's Provident Fund is exempted under section 17 of Employees' Provident Fund and Miscellaneous Provision Act, 1952. Conditions for exemption stipulate that the Company shall make good deficiency, if any, in the interest rate declared by the trust vis-s-vis interest rate declared by the Employees' Provident Fund Organisation. The liability as on the consolidated balance sheet date is ascertained by an independent actuarial valuation.

iii. Defined benefit plans

For defined benefit plans, the cost of providing benefits are determined using the projected unit credit method, with independent actuarial valuations being carried out at the end of each reporting period. The Group provides gratuity to its employees and pension to retired whole-time directors. Gratuity liabilities are funded and managed through separate trust (except in case of some of the employees of Port and Yard Equipment Division where the funds are managed by Life Insurance Corporation of India). The liabilities towards pension to retired managing and whole-time directors are not funded.

Remeasurements, comprising actuarial gains and losses, return on plan assets excluding amounts included in net interest on the net benefit liability (asset) and any change in the effect of the asset ceiling (if applicable) are recognised in the consolidated balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurements recognised in the other comprehensive income are not reclassified to the consolidated statement of profit and loss but recognised directly in the retained earnings. Past service costs are recognised in the consolidated statement of profit and loss in the period in which the amendment to plan occurs. Net interest is calculated by applying the discount rate to the net defined liability or asset at the beginning of the period, taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments.

Defined benefit costs which are recognised in the statement of profit and loss are categorised as follows :

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements); and
- net interest expense or income.

The retirement benefit obligation recognised in the consolidated balance sheet represents the actual deficit or surplus in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reduction in future contributions to the plans.

Other Long-term benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised based on actuarial valuation at the present value of the obligation as on the reporting date.

Termination benefits

The liability for termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

Notes forming part of the Consolidated financial statements

2. Summary of significant accounting policies (Contd..)

2.14 Taxation

i. Current tax

Current tax is payable based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the consolidated statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current tax is calculated using tax rates that have been enacted or substantially enacted by the end of the reporting period.

ii. Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profits. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. Deferred tax assets arising from the deductible temporary differences are only recognised to the extent it is probable that there will be sufficient taxable profits against which the benefits of the temporary difference can be utilised and they are expected to reverse in the foreseeable future. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantially enacted by the end of the reporting period.

iii. Current and deferred tax are recognised in the consolidated statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

iv. Current and deferred tax assets and liabilities are offset where there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

2.15 Property, Plant and Equipment

Property, Plant and Equipment held for use in the production or supply of goods or services, or for administrative purposes are stated at cost or deemed cost applied on transition to Ind AS, less accumulated depreciation and accumulated impairment losses, if any. Cost includes purchase cost of materials, including import duties and non-refundable taxes, any directly attributable costs of bringing an asset to the location and condition of its intended use and borrowing costs capitalised in accordance with the Group's accounting policy.

Properties in the course of construction for production or supply of goods or services or for administrative purposes are carried at cost, less any recognised impairment losses.

Notes forming part of the Consolidated financial statements

2. Summary of significant accounting policies (Contd..)

Depreciation is recognised so as to write off the cost of assets (other than properties under construction) less their residual values over the useful lives, using the straight-line method. Depreciation of assets commences when the assets are ready for their intended use. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the effect of any changes is accounted as change in estimate on a prospective basis. Estimated useful lives of the assets are as follows:

Estimated useful lives of the assets are as follows:

Class of Assets	Useful Lives
Buildings and Roads	5 to 60 years
Plant and Equipment	3 to 15 years
Electrical Installations	10 years
Laboratory Equipment	10 years
Furniture and Fixtures	10 years
Office Equipments	3 to 5 years
Computers	3 years
Motor Vehicles	5 to 8 years
Right of use Assets	lease period 4 to 7 years

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is recognised in the consolidated statement of profit and loss.

2.16 Intangible assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Amortisation is recognised on straight-line basis over the estimated useful lives of assets. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses, if any. Estimated useful lives of the intangible assets are as follows:

Class of Assets	Useful Lives
Software	1 to 10 years

An intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of intangible assets is recognised in the consolidated statement of profit and loss.

2.17 Impairment of assets

At the end of each reporting period, the Group reviews the carrying amounts of its property, plant

Notes forming part of the Consolidated financial statements

2. Summary of significant accounting policies (Contd..)

and equipment, right to use assets, intangible assets and Goodwill, to determine whether there is any indication that those assets have suffered any impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash generating unit to which the asset belongs.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of an asset or cash generating unit is estimated to be less than the carrying amount, the carrying amount of the asset or cash generating unit is reduced to its recoverable amount. An impairment loss is recognised immediately in the consolidated statement of Profit and Loss. When an impairment loss subsequently reverses, the carrying value of the asset or cash generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset or cash generating unit in prior years. Any reversal of an impairment loss is recognised immediately in the consolidated statement of profit and loss.

2.18 Inventories

Raw materials, work-in-progress and finished products are valued at lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes purchase price, non-refundable taxes and duties and other directly attributable costs incurred in bringing the goods to the point of sale. Work-in-progress and finished goods include appropriate proportion of overheads.

Stores and spares are valued at cost comprising of purchase price, non-refundable taxes and duties and other directly attributable costs after providing for obsolescence and other losses, where considered necessary.

Value of inventories are generally ascertained on the "weighted average" basis.

2.19 Provisions, Contingent liabilities and Contingent assets

2.19.1 Provisions

Provisions are recognised when, the Group has a present obligation (legal or constructive) as a result of past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

Notes forming part of the Consolidated financial statements

2. Summary of significant accounting policies (Contd..)

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.19.2 Warranties

Provisions for the expected cost of warranty obligations under local sale of goods legislation are recognised at the date of sale of the relevant products, at the management's best estimate of the expenditure required to settle the Group's warranty obligation.

2.19.3 Onerous contracts

An onerous contract is considered to exist where the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract. Present obligation arising under onerous contracts are recognised and measured as provisions.

2.19.4 Contingent liabilities and assets

Contingent liability is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group, or is a present obligation that arises from past events but is not recognised because either it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or a reliable estimate of the amount of the obligation cannot be made. Contingent liabilities are disclosed and not recognised. In the normal course of business, contingent liabilities may arise from litigation and other claims against the Group. Although there can be no assurance regarding the final outcome of the legal proceedings in which the Group is involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

2.20 Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transactions cost that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transactions cost directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognised immediately in the consolidated statement of profit and loss.

2.21 Financial assets

All regular purchases or sales of financial assets are recognised and derecognised on a transaction date basis. Regular purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

2.21.1 Amortised Cost

Financial assets having contractual terms that give rise on specified dates to cash flows that are

Notes forming part of the Consolidated financial statements

2. Summary of significant accounting policies (Contd..)

solely payments of principal and interest on the principal outstanding and that are held within a business model whose objective is to hold such assets in order to collect such contractual cash flows are classified in this category. Subsequently, these are measured at amortised cost using the effective interest method less any impairment losses.

2.21.2 Investments in equity instruments at fair value through other comprehensive income (FVTOCI)

On initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to the consolidated statement of profit and loss even on disposal of the investments.

The Group has equity investments in two entities, and elected the irrevocable option to carry these at FVTOCI.

2.21.3 Financial assets at fair value through profit and loss (FVTPL)

Investments in equity instruments are classified as at FVTPL (except for those carried at FVTOCI, as stated above in 2.21.2). Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in the consolidated statement of profit and loss and are included in "Other Income".

2.21.4 Impairment of financial assets

Loss allowance for expected credit losses is recognised for financial assets measured at amortised cost and fair value through other comprehensive income.

The Group recognises lifetime expected credit losses for all trade receivables that do not contain a financing component. The Group uses the practical expedient by computing the expected credit loss allowance based on a provision matrix, as permitted under Ind AS 109. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information.

For financial assets (apart from trade receivables, as above) whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised. Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk of the financial asset has significantly increased since initial recognition.

2.21.5 Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to the cash flow from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Notes forming part of the Consolidated financial statements

2. Summary of significant accounting policies (Contd..)

On derecognition of financial asset in its entirety, the difference between the asset's carrying amounts and the sum of the consideration received and receivable is recognised in the consolidated statement of profit and loss.

2.21.6 Foreign exchange gain and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in the consolidated statement of profit and loss. Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in other comprehensive income.

2.21.7 Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income / expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premium or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in the consolidated statement of profit and loss and is included in the "Other income" line item.

2.22 Financial liabilities and equity instruments

2.22.1 Classification as debt or equity

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

2.22.2 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

2.22.3 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

(i) Financial liabilities subsequently measured at amortised cost

All financial liabilities (other than those mention in (ii) below) are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method.

(ii) Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either a derivative

2. Summary of significant accounting policies (Contd..)

instrument (not designated in hedging relationship), contingent consideration recognised by the Group as an acquirer in a business combination to which Ind AS 103 applies, is held for trading, it is designated as at FVTPL. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in the consolidated statement of profit and loss and include in "Other Income".

2.22.4 Financial guarantee contracts

These are initially measured at their fair values and, are subsequently measured at the higher of the amount of loss allowance determined or the amount initially recognised less, the cumulative amount of income recognised.

2.22.5 Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments and are recognised in the consolidated statement of profit and loss and are included in 'Other expenses/ Other income'.

For financial liabilities carried at FVTPL, the fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. The gain or loss on translation of foreign exchange is recognised in the consolidated statement of profit and loss and forms part of the fair value gains or losses.

2.22.6 Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. An exchange between lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the consolidated statement of profit and loss.

2.22.7 Derivative financial instruments

The Group enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks, including foreign exchange forward contracts, interest rate swaps and cross currency swaps. Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in the consolidated statement of profit and loss immediately unless the derivative is designated as a hedging instrument, in which event the timing of the recognition in the consolidated statement of profit and loss depends on the nature of the hedging relationship and the nature of the hedged item.

2.23 Segment

Information reported to the Chief operating decision maker (CODM) for the purpose of resource allocation and assessment of segment performance focuses on products and services. Accordingly, directors of the Group have chosen to organise the segment based on its product and services as follows:

Notes forming part of the Consolidated financial statements

2. Summary of significant accounting policies (Contd..)

- Products & services
- Project & services.

The Group's chief operating decision maker is the Managing Director.

Revenue and expenses directly attributable to segment are reported under each reportable segment. Expenses which are not directly identifiable to each reporting segment are allocated on the basis of associated revenue of the segment and manpower efforts. All other expenses which are not attributable or allocable to segments are disclosed as Unallocable expenses.

Assets and liabilities that are directly attributable or allocable to segments are disclosed under each reportable segment. All other assets and liabilities are disclosed as Unallocable.

The Group's financing and income taxes are managed on a Group level and are not allocated to operating segment.

2.24 Earning per share

Basic earnings per share is computed by dividing the profit attributable to the ordinary equity holders (i.e., Profit after tax before other comprehensive income) by the weighted average number of shares outstanding during the financial year. Diluted earnings per share is computed using the weighted average number of share outstanding during the financial year and dilutive potential shares, except where the result would be anti-dilutive.

2.25 Rounding off

All amounts disclosed in the consolidated financial statements and notes have been rounded off to the nearest lakhs (upto two decimals) as per the requirements of Schedule III, unless otherwise stated.

2.26 New and amended standards adopted by the group:

The group has applied the following standards and amendments for the first time for their annual reporting period commencing from April 01, 2019.

- Ind AS 116, Leases
- Amendment to Ind AS 12, Income Taxes

The group had to change its accounting policies as a result of adopting Ind AS 116, the impact of which is disclosed in note 04. The other amendments listed above did not have any impact on the amounts recognized in the prior periods and are not expected to significantly affect the current and future period.

Notes (Right of use and Lease liabilities):

- i. As indicated in note no 2.10, with effective April 01, 2019, the group has adopted Ind AS 116 “Leases” and applied the standard to lease arrangements existing on the date of initial application using the modified retrospective approach with right-of-use asset recognized at an amount equal to the lease liability adjusted for any prepayments/accruals recognized in the balance sheet immediately before the date of initial application. Accordingly, comparatives for the year ended March 31, 2019 have not been retrospectively adjusted.
- ii. On adoption of Ind AS 116, the group has recognised right of use assets and lease liabilities in relation to leases which was previously recognised as “operating leases” and “Finance Lease” under the principles of Ind AS 17, Leases. The right of use assets and lease liabilities were measured at the present value of the remaining lease payments, discounted using the lessee’s incremental borrowing rate applied to the lease liabilities as on April 01, 2019.
- iii. Rs. 77.76 lakhs is towards lease of land/ premises/facilities, etc are secured by the rights to the leased assets recognised in the consolidated financial statements as Right of Use, revert to the lessors in the event of default. The discount rate is between the range of 11.50% to 12.50% pa.

19. Other Equity (Contd.)
Nature and Purpose:
(a) Equity portion of 12.5% Non Convertible Redeemable Preference Shares :

During the year ended March 31, 2019, the Company had issued 12.5% Non Convertible Redeemable Preference Shares ('NCRPS') of Rs. 25,000 lakhs, divided in to 25,00,00,000 preference shares of Rs. 10 each to Tata Steel Limited, on private placement basis. NCRPS are in nature of compound financial instrument, accordingly the liability portion disclosed under long term borrowings and residual portion is disclosed under other equity.

(b) General reserve:

The general reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to profit or loss.

(c) FVOCI-Equity Investment :

This reserve represents the cumulative gains and losses arising on the revaluation of equity instruments measured at fair value through OCI, net of amounts reclassified to the retained earnings when those assets have been disposed off.

(d) Foreign currency translation reserve :

Exchange differences arising on translation of foreign operations are recognised in the other comprehensive income as described in accounting policy and accumulated in a separate reserve within equity. The cumulative amount is reclassified to the statement of profit and loss when the net investment is disposed-off.

(e) Foreign exchange fluctuation reserve:

Foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit and loss on repayment of the monetary items or disposal of investment.

(f) Foreign currency monetary item translation difference reserve :

Exchange differences arising on settlement and remeasurement of long-term foreign currency monetary items are accumulated in "Foreign Currency Monetary Item Translation Difference Account" and amortised over the maturity period or upto the date of settlement of such monetary items, whichever is earlier, and charged to the Statement of Profit and Loss.

42. Employee Benefit plans

42.01 Defined contribution plans

The Company, its subsidiary operating in Sri Lanka provide Provident Fund facility to all employees. The Parent Company provides superannuation benefits to selected employees. The assets of the plans are held separately from those of the Group in funds under the control of the trustees in case of trust or of the employees provident fund organisation. The contributions are expensed as they are incurred in line with the treatment of wages and salaries. The liability as on the balance sheet is ascertained by an independent actuarial valuation.

"The Group has recognised an amount of **Rs. 478.93 lakhs** as expenses for the year ended March 31, 2020 (For the year ended March 31, 2019: Rs. 423.93 lakhs) towards contribution to the following defined contribution plans"

42.02 Defined benefit plans

The Company, its joint venture operating in India and subsidiaries operating in Sri Lanka provide Gratuity benefit to all employees. The Company and its subsidiaries operating in Sri Lanka provides post retirement pension for retired whole-time directors. The assets of the gratuity plans are held separately from those of the Group in funds under the control of the trustees of the independent trusts or with the life insurance companies. The board of trustees of the gratuity fund composed of an equal number of representatives from both employees and employers. The board of the Fund is required by law and by the trust deed to act in the interest of the Fund and of all relevant stakeholders in the scheme. The board of trustee of the fund and management of life insurance company is responsible for the investment policy with regard to the assets of the Fund. Post retirement pension plan is not funded.

42. Employee Benefit plans (Contd..)

Under the gratuity plan, the employees with minimum five years of continuous service are entitled to lumpsum payment at the time of separation calculated based on the last drawn salary and number of years of service rendered with the company. Under the post retirement pension, the Company pays monthly pension to retired whole-time directors as decided by the board of directors.

These plans expose the Group to actuarial risks such as investment risk, interest rate risk, longevity risk and salary risk.

Investment Risk The present value of the defined benefit plan liability (denominated in Indian Rupee) is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. For other defined benefits plans, the discount rate is determined by reference to bonds when there is deep market for such bonds. Currently, for the plan in India, it has relatively balanced mix of investments in government securities and other debt instruments.

Interest risk A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity risk The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

In respect of the plan in India, the most recent actuarial valuation of the plan assets and the present value of defined benefit obligation were carried out as at March 31, 2020 by independent actuaries. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

During the year ended March 31, 2020 and March 31, 2019 there was no amendment, curtailments and settlements in the gratuity plan and post retirement pension plans.

b) Expected rate(s) of salary income	8.00%	8.00% to 9.00%

The fair value of the debt securities issued by government and corporates are determined based on quoted market prices in active markets. The fair value of investment in mutual funds are determined based on closing net asset value declared by the respective asset management company. The fair value of balance in special deposit scheme is determined based on the carrying value. The fair value of balance with insurance companies is determined based on the funds statement received from the respective insurance companies.

The actual return on plan assets was **Rs. 35.15 lakhs** (for the year ended March 31, 2019: Rs. 41.98 Lakhs).

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. Estimates of future salary increases take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market. The sensitivity analysis given below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant:

- If the discount rate is 100 basis points higher (lower), the defined benefit obligation would decrease by **Rs.102.78 lakhs** (increase by **Rs. 120.19 lakhs**) [as at March 31, 2019: decrease by Rs. 93.56 lakhs (increase by Rs. 108.27 lakhs)]
- If the expected salary increase growth increases (decreases) by 1%, the defined benefit obligation would increase by **Rs.117.29 lakhs** (decrease by **Rs.102.40 lakhs**) [as at March 31, 2019: increase by Rs. 106.74 lakhs (decrease by Rs. 94.03 lakhs)]

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is likely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

In presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is same as applied in calculating the defined benefit obligation liability recognised in the balance sheet. There was no change in the method and assumptions used in preparing the sensitivity analysis from prior years.

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected pension increase and mortality. The sensitivity analysis given below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant:

- If the discount rate is 100 basis points higher (lower), the defined benefit obligation would decrease by **Rs. 75.51 lakhs** (increase by **Rs. 86.65 lakhs**) [as at March 31, 2019: decrease by Rs. 66.12 lakhs (increase by Rs. 75.88 lakhs)]
- If the expected pension increase growth increases (decreases) by 1%, the defined benefit obligation would increase by **Rs. 88.89 lakhs** (decrease by **Rs. 78.61 lakhs**) [as at March 31, 2019: increase by Rs. 78.63 lakhs (decrease by Rs. 69.44 lakhs)]

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is likely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

In presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is same as applied in calculating the defined benefit obligation liability recognised in the balance sheet. There was no change in the method and assumptions used in preparing the sensitivity analysis from prior years.

43. Financial instruments
43.01 Capital management

The Group manages its capital to ensure that entities in the Group will be able to continue as going concerns while maximising the return to stakeholders through the optimisation of the debt and equity balance. The Capital structure of the Group consists of net debt (borrowings as detailed in notes 21 and 25 offset by cash and bank balances detailed in note 14) and the total equity of the Group.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt.

Gearing Ratio

The gearing ratio at end of the reporting period was as follows

	As at 31.03.2020	As at 31.03.2019
	Rs. lakhs	Rs. lakhs

Net debt to equity ratio	(1.30)	(290.66)

43.02 Financial risk management objectives and policies

The Group's principal financial liabilities, other than derivatives, comprise loans and borrowings and trade and other payables. The Group's principal financial assets include loans, trade and other receivables, and cash and short-term deposits that derive directly from its operations. The Group also holds FVTOCI investments and enters into derivative transactions. The Group is exposed to market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

43.03 Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Group enters into a variety of deriving financial instruments to manage its exposure to foreign currency risk and interest rate risk.

43.04 Foreign currency risk management

The Group enter into sale and purchase transactions and borrowings denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

	Monetary liabilities		Monetary assets

The following table details the Group's sensitivity to a 10% increase and decrease in exchange rate between the pairs of currencies. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusted their translation at the period end for 10% change in foreign currency rates. The sensitivity analysis includes trade payables, receivables, external loans as well as loans within the Group where the denomination of the monetary item is in a currency other than the functional currency of the lender or the borrower.

43. Financial instruments (Contd.)
43.05 Interest rate risk management

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of change in market interest rates. The group's exposure to the risk of changes in market interest rates relates primarily to the group's long-term debt obligations with floating interest rates.

43.06 Credit risk management

Credit risks refers to risk that a counterparty will default on its contractual obligations resulting in financial loss to the group. Credit risk encompasses both the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks. The Parent Company's Board approved financial risk policies comprise liquidity, currency, interest rate and counterparty risk. Financial instruments that are subject to concentrations of credit risk, principally consist of trade receivables, finance receivables, loans and advances and derivative financial instruments. None of the financial instruments of the group result in material concentrations of credit risks. The group does not engage in speculative treasury activity but seeks to manage risk and optimise interest and commodity pricing through proven financial instruments.

Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas.

The credit risk on bank balances and derivative financial instruments is limited because the counterparties are banks with high credit ratings.

43.07 Liquidity risk management

The responsibility for managing liquidity risk rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of Group's short-term, medium-term and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities, financial support from the promoter and undrawn borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

i) Liquidity and interest risk tables

The following tables detail the maturity profile of Group's non-derivative financial liabilities with agreed repayment period. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay.

Fair Value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1 – Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 – Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The investments included in Level 2 of fair value hierarchy have been valued using quotes available for similar assets and liabilities in the active market. The investments included in Level 3 of fair value hierarchy have been valued using the cost approach to arrive at their fair value. The cost of unquoted investments approximate the fair value because there is a wide range of possible fair value measurements and the cost represents estimate of fair value within that range.

The following table summarises financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosure are required):

50. The Parent Company has incurred loss after tax of Rs 13,263.91 lakhs during the year ended March 31, 2020 and accumulated losses as on that date amounting to Rs 58,806.63 lakhs, has eroded the net worth of the Parent Company. The Parent Company expects to generate cash flow from improvements in operations, increased business from the promoter, increased efficiencies in the project activities, proceeds from restructuring of its subsidiaries, facilities from banks as required and necessary financial support from the Promoter, if required, which will be sufficient to meet future obligation of the company. Accordingly, these financial statements have been prepared on a going concern basis.

51. Revenue from construction contracts are recognized on percentage completion method. The estimated cost to complete the contracts is arrived at based on technical data, forecast, assumptions and contingencies and are based on the current market price or firm commitments, as applicable. Such estimates/assumptions are subject to variations and completion of the projects within the estimated time. The management has implemented necessary steps and strengthened the internal controls around the estimation process and also made reasonable estimation of the time to complete the said projects and expects that such variation may not be significant.
52. The Group had entered into share purchase agreement with Canyon Point Investment Holdings Pte. Ltd. (CANYON) for transfer of its shareholding in its step down subsidiaries Dutch Lanka Trailers Manufacturers Limited along with its subsidiary Dutch Lanka Engineering Pvt Ltd and joint venture TATA International DLT Private Limited. The same was approved by RBI vide letter dated September 11, 2018 subject to compounding for non-compliance with Regulation 15(ii) for Foreign Exchange Management (Transfer or Issue of Any Foreign Security) (Amendment) Regulations, 2004. The Parent Company filed an application on October 12, 2018 but RBI has advised to resubmit the application along with the same in connection with another matter in respect of one of its step down subsidiary, pending with RBI.
54. Consequent to the nationwide lockdown announced on March 24, 2020 the Parent Company suspended its operations from the said date and has resumed limited operations after obtaining necessary permissions from authorities. The Parent Company has assessed the impact of COVID-19 on the financial statements, current business operations, liquidity position, cash flow and has concluded that no material adjustments are required in the financial statements. The Parent Company will continue to monitor the impact of Covid-19 and any material changes to future economic conditions.
55. During the financial year ended March 31, 2020, the Parent Company has carried out a restructuring of its top management to create a sustainable organisation. Subsequent to change in management from November 13, 2019, a review of certain matters were also carried out by the Parent Company, however no significant findings were noted from the said review. The Company's management is committed in bringing in more focus and agility to meet the Company's objective to build a sustainable organisation
56. Remuneration to Managing Director of Parent Company amounting to Rs 136 lakhs has been approved by the Board of Directors of Parent Company and is subject to approval from shareholders of the Parent Company in the ensuing annual general meeting.
57. The Hon'ble Supreme Court of India in its judgment in the matter of Vivekananda Vidyamandir & Others Vs The Regional Provident Fund Commissioner (II) West Bengal laid principles in relation to non-exclusion of certain allowances from the definition of "basic wages" for the purposes of determining contribution to provident fund under the Employees' Provident Funds & Miscellaneous Provisions Act, 1952. Based on initial assessment performed by the Parent Company, the order did not result in any impact on these financial statements. The management will continue to assess the impact of further developments in this regard and deal with it accordingly.
