

Braveheart Sunita Displays High Ethical Values

Sunita Lohar is well known for performing her duties diligently, but recently she proved that she carries very high values of work ethics in her heart. Sunita was cleaning a section in the Personnel & Administration Office when she suddenly noticed a thick bundle of very high denomination currency in an open drawer in one of the work stations. There was no one else in that office at that time. Without hesitating for a moment, she rushed to the adjoining office and shared her concern with the occupants there.

Sunita returned to the spot, with an accomplice and showed the money which was unguarded and an easy target for somebody with low ethical values. The money was immediately taken in safe custody and returned to its rightful owner. Sunita's sense of responsibility and propriety, saved the owner of the money much trouble, and this has given her reasons to carry her head high with pride
